

****Please note, land manager regulations specify that groups can be no larger than 12 total (including students and instructors), and if we have two groups scheduled on the same day, those groups must operate entirely independently of each other and not meet up at any time in the wilderness area. If your trip is scheduled concurrently with another trip, please reach out to coordinate with the other trip leader to ensure that you plan to operate independently in separate areas. Requests for party sizes larger than 12 are highlighted below -- course leaders must adjust their party size to be 12 or fewer.****
