No one who plays in mountain snow should leave home without having studied this book.
—Rocky Mountain News

SHARPEN YOUR SKILLS. SAVE YOUR LIFE.
The key to having fun with winter backcountry sports is knowing that you have the skills and knowledge to get home safely. The more you know about snow stability and the sharper your decision making, the more likely you are to avoid avalanche danger and confidently enjoy your time in the mountains. In Staying Alive in Avalanche Terrain, 3rd Edition, acclaimed snow and avalanche expert Bruce Tremper provides easy-to-understand safety tips and skills, including the latest research and techniques for evaluating snowpacks, as well as how to rescue companions in the event of an avalanche. Used as a textbook in many avalanche training courses, this guide is essential for everyone who ventures off groomed snow in the mountains: backcountry skiers, splitboarders, snowshoers, cross-country skiers, and snowmobilers.

Learn fundamental skills:
• How to evaluate terrain
• How to test snow stability
• How to control your exposure and lower your risk
• How to practice low-risk travel techniques
• What do to if you're caught in an avalanche
• How to manage the human factors that contribute to accidents

Thoroughly updated and reorganized, this new edition encompasses the latest findings in avalanche research. A brand-new final chapter helps you synthesize everything you've learned so that you make smarter decisions when planning and enjoying your adventures.

Bruce Tremper grew up skiing in the mountains of western Montana. He was director of the Forest Service Utah Avalanche Center, where he worked for nearly thirty years. Tremper is the author of Avalanche Essentials: A Step-by-Step System for Safety and Survival and Avalanche Pocket Guide: A Field Reference. He lives in Salt Lake City.

Memoir/Outdoor Adventure/American West

“Three couples, their stories unfolding, weaving and intertwining over the long-distance trail until the dramatic conclusion traversing snow-covered peaks.”
—Mark Larabee, Pulitzer Prize–winning journalist

MEMOIR/OUTDOOR ADVENTURE/AMERICAN WEST

• True story of six thru-hikers whose journeys cross and eventually combine in a thrilling finale
• Barney Scout Mann has deep connections in the PCT community
• More people have summited Everest than have completed the PCT

In Journeys North, legendary trail angel, thru hiker, and former PCTA board member Barney Scout Mann spins a compelling tale of six hikers on the Pacific Crest Trail as they walk from Mexico to Canada. This ensemble story unfolds as these half-dozen hikers—including Barney and his wife, Sandy—tread north, slowly forming relationships and revealing their deepest secrets and aspirations. They face a once-in-a-generation drought and early severe winter storms that test their will in this bare-knuckled adventure. In fact, only a third of all the hikers who set out on the trail that year (2007) would finish.

As the group approaches Canada, a storm rages. How will this diverse collection of hikers, differing in age, gender, and background, respond to the hardship and suffering ahead of them? Can they all make the final 60-mile push through freezing temperatures, sleet, and snow, or will some reach their breaking point?

Journeys North is a story of grit, compassion, and the relationships people forge when they strive toward a common goal.

BARNEY SCOUT MANN has hiked the Appalachian, Pacific Crest, and Continental Divide Trails. He has been board chair of the Pacific Crest Trail Association and is president of the Partnership for the National Trails System. Mann has been recognized with a Lowell Thomas Journalism Award and is the coauthor of The Pacific Crest Trail: Exploring America’s Wilderness Trail and author of The Continental Divide Trail: Exploring America’s Ridgeline Trail. He and his wife, Sandy, live in San Diego and have hosted more than 7,000 PCT hikers.

DOUGLAS FIR
The Story of the West’s Most Remarkable Tree
STEPHEN F. ARNO AND CARL E. FIEDLER
ILLUSTRATIONS BY ZOE KELLER
AVAILABLE IN OCTOBER

192 pages | 6 x 8 | $21.95 | hardcover

Natural History/Trees | Rights: World

A fascinating natural and cultural history of one of the most iconic trees in the West

• First general history of the most ubiquitous tree in North America
• Beautiful package perfect for holiday gift-giving
• Appendix identifies the largest Douglas firs in the West

Westerners familiar with their forests may think they know the Douglas fir—but how well do they? Douglas firs are found from British Columbia in the continental northwest to as far south as Oaxaca, Mexico. They flourish in the Cascades, Rocky Mountains, Sierra, and other mountain ranges, as well as in desert valleys.

Incredibly hardy, this tree adopts various strategies to occupy more kinds of habitats than any other native tree, even becoming an uncontrollable invader in some regions, crowding out ponderosa pines, western larch, aspen groves, and mountain grasslands. And the utility of this noble species is impressive. Douglas firs yield more high-quality construction lumber than any other tree in the world.

Most intriguing of all, perhaps, is that the story of the Douglas fir has gone untold. Douglas Fir fills this literary gap and presents an engaging profile of this remarkable tree and its relationship to people, commerce, culture, and wilderness.

STEPHEN F. ARNO holds a PhD in forestry and plant science and is retired from a career as a research forester with the US Forest Service. Since 1973, he has authored or co-authored six books about forests and trees, including two Mountaineers Books titles, Northwest Trees and Timberline.

CARL E. FIEDLER has a PhD in forestry and ecology and is a retired professor from the University of Montana.

Steve and Carl have coauthored two previous books together. Both authors live in Missoula, Montana.

Birds/Natural History/Photography | Rights: World

Stunning explorations of the lives of two of our most mysterious and striking creatures: the Snowy Owl and the Great Gray Owl

• Images and text reveal the secret lives of these enigmatic birds
• Author’s photography has won numerous awards from Audubon Magazine, the International League of Conservation Photographers, and others
• Exquisite gift books for bird and wildlife lovers

The Snowy Owl—also known as the Arctic Owl, Snowy White Owl, and White Owl—is one of the most easily identified but least understood owls in the world. The Great Gray Owl—also known as the Phantom of the North, Great, Gray Ghost, and Bearded Owl—is one of the largest owl species and lives in the western mountains and boreal regions of North America.

Award-winning author and photographer Paul Bannick delves into the natural history of these owl species, including the latest research, providing readers with comprehensive yet accessible looks at their preferred habitat, hunting and feeding behavior, mating and nesting actions, owlets and fledglings, and more.

Bannick’s unique and gorgeous owl images are complemented by additional images of the owls’ habitats and other species that share ecosystems with the Snowy and Great Gray. Throughout each narrative, his time in the field observing and photographing these fascinating birds comes to life in evocative, experiential passages.

These two beautiful books follow Bannick’s bestselling titles, The Owl and the Woodpecker and Owl, providing fans with another emotionally rich photographic portfolio and engaging, informative text.
Paul Bannick is the award-winning photographer and author of two best-selling books, *The Owl and The Woodpecker: Encounters with North America's Most Iconic Birds* and *Owl: A Year in the Lives of North American Owls*. His first book was a finalist for the Washington State Book Award, and his second received a gold medal in the 2017 Independent Publisher Book Awards. Based in Seattle, Paul travels all over the world in pursuit of wildlife imagery that encourages conservation.

**BREEDING**

Snowy Owl breeding is a race against the biological clock. And one thing is clear: the degree of success is driven by the male’s ability to successfully hunt a large number of lemmings. Without lemmings, the male cannot attract a mate, and she will not lay eggs. Once a mate is secured and the female has laid her eggs, the male begins to hunt and protect the nest. The female begins to lay eggs, and the male will become the sole provider of food for the eggs and young in the nest.

Dragons in the Snow

Avalanche Detectives and the Race to Beat Death in the Mountains

Edward Power

Available in September

288 pages | 6 x 9 | $19.95 | paperback
Adventure/Winter Sports | Rights: World

A gripping, fast-paced story that blends backcountry ski and snowboard adventure with avalanche forecasting, rescue, and survival

Edward Power sets the reader down in the midst of a February 2017 blizzard that raked Utah’s Uinta Range as nine snowboarders made their way into the backcountry for a day of intense adventure. As the boarders were taking their first turns, expert avalanche forecaster Craig Gordon was tracking the storm and its impact, posting one of the most dire avalanche forecasts and warnings in his career.

In Dragons in the Snow, Power delves into the research and science behind avalanche forecasting and rescue, weaving in the art of backcountry skiing as well as dramatic tales of avalanche accidents, rescues, and recoveries. And he paints compelling portraits of the men and women who have made the study of avalanches their life’s work. The tales told by these avalanche forecasters, as well as the stories of the backcountry riders who may “wake the dragon” make for not just a compelling read, but also a powerful tool for raising avalanche awareness in everyone who plays in the backcountry in winter.

Edward Power is a former staff writer for The Philadelphia Inquirer, as well as a staff writer and editor at The Virginian-Pilot newspaper. In early 2016, he and his wife, both avid skiers, moved to northern Utah where Power became fascinated by avalanches after participating in an avalanche awareness course. Power lives with his wife in Eden, Utah.

Discover new ways to become active every month of the year

- From roller skating to hip hop, snowshoeing to tree climbing, fitness can be fun!
- Two new movement activities to try each month
- Features tips on goal setting and how to get started, plus inspirational journal prompts

Our bodies are made to move and are designed to adapt to a range of activity—climbing, sprinting, carrying heavy things, walking long distances. Yet today we move less than ever before.

Yoga instructor and fitness expert Nicole Tsong wants to change that. She has tried hundreds of different types of movement and in this new guide, she shares which of those are the most fun, accessible, and body-beneficial. Detailing two new activities for each month of the year, she describes her own experiences trying each movement, then lays out a road map for readers to embark on a similar adventure, starting at beginner level and moving up through “Reach” and “Adventure” goals. For example, readers can choose to walk 35 to 40 minutes twice a week for the whole month, or they can slowly increase mileage each week working up to a 10-, 15, or 20-mile challenge. Tsong also offers quick tips for getting started, basic gear needs and costs, and a “Discovery” section with questions, prompts, and journal space so readers can explore their own movement journeys.

Known for a playful, accessible approach to fitness, health, and wellness, NICOLE TSONG wrote the popular column “Fit for Life” in The Seattle Times for more than six years and is the author of Yoga for Hikers and Yoga for Climbers (Mountaineers Books). She has taught yoga for more than a decade and consults as a success coach. She lives in Seattle.

ERIKA SCHULTZ is a staff photographer for The Seattle Times and teaches photography and video at the University of Washington’s School of Communications.

RAVEN'S WITNESS
The Alaska Life of Richard K. Nelson
HANK LENTFER
FOREWORD BY BARRY LOPEZ
AVAILABLE IN AUGUST

256 pages | 5 1/8 x 8 1/2 | $24.95 | hardcover

Biography/Conservation/Alaska | Rights: World

An inspirational biography of a modern-day John Muir set against the backdrop of Alaska's wilderness, Native cultures, the writing life, and friendships rooted in nature

• Richard K. Nelson was the host of the national public radio series, “Encounters”
• Nelson was an anthropologist who lived with Alaska Native tribes and spoke both Inupiaq and Koyukon
• Based on Nelson’s journals and interviews with Gary Snyder, Barry Lopez, Rick Bass, and others

“He listened to his [Native Alaskan] teachers, immersed himself in their landscapes as a naturalist, and became, without intending to, a great teacher himself.” —Barry Lopez, from the foreword

Before his death in 2019, cultural anthropologist, author, and radio producer Richard K. Nelson’s work focused primarily on the indigenous cultures of Alaska and, more generally, on the relationships between people and nature. Nelson lived for extended periods in Athabaskan and Alaskan Eskimo villages, experiences which inspired his earliest written works, including Hunters of the Northern Ice. In Raven’s Witness, Lentfer tells Nelson’s story—from his midwestern childhood to his first experiences with Native culture in Alaska through his own lifelong passion for the land where he so belonged.

Nelson is the author of the bestselling The Island Within and Heart and Blood. The recipient of multiple honorary degrees and numerous literary awards, he regularly packed auditoriums when he spoke. His depth of experience allowed him to become an intermediary between worlds. This is his story.

As a lifelong Alaskan, HANK LENTFER is familiar with much of the country Richard Nelson wrote about. Their friendship centered on a mutual love of wild country, writing, and listening to wild voices. A biologist by training, Lentfer currently works as a recordist and part-time land steward for The Nature Conservancy. He is the author of Faith of Cranes: Finding Hope and Family in Alaska (Mountaineers Books), and lives in Gustavus, Alaska.

THIS LAND OF SNOW
A Journey Across the North in Winter
ANDERS MORLEY

AVAILABLE IN SEPTEMBER

256 pages | 6 x 9 | $19.95 | paperback
1 map
Adventure/Natural History/Canada | Rights: World

Every journey begins with a single step, or in Morley's case, the shush of cross-country skis

A passionate skier since he was a child, Anders Morley dreamed of going on a significant adventure, something bold and of his own design. And so one year he decided to strap on cross-country skis to travel across Canada in the winter alone.

This Land of Snow is about that journey and a man who must come to terms with what he has left behind, as well as how he wants to continue living after his trip is over. It is an honest, thoughtful, and humorous reckoning of an adventure filled with adrenaline and exuberance, as well as mistakes and danger. Along the way readers gain insight, both charming and fascinating, into Northern outdoor culture and modern-day wilderness living, the history of northern exploration and Nordic skiing, the right to roam movement, winter ecology, and more.

Throughout, Morley’s clear, subtle, and self-deprecating voice speaks to a backwoods-genteel aesthetic that explores the dichotomy between wildness and refinement, language and personal story, journey and home.

A dual-citizen of the US and Canada, Anders Morley grew up in New Hampshire and began skiing at age five. After earning degrees in history from Taylor University and St. Andrews University, he settled in Italy and explored the Alps in his free time. A writer and translator whose work has appeared in The Globe and Mail, Northern Woodlands, Maisonneuve, and The Aurorean, he lives on an island in the upper St. Lawrence River in eastern Ontario, Canada.

The first edition of Ice & Mixed Climbing was groundbreaking: a comprehensive instruction guide to ice and mixed climbing written by one of the sport’s premier practitioners, Will Gadd. Like its predecessor this fully revised and updated second edition features detailed instruction on technique—from the swing of the ice tool to the placement of the feet to combining actions for the greatest efficiency. New sections on climbing glacial ice and expanded discussion of dry-tool placement encourage ice and mixed climbers to get out year round, while a thoroughly revised chapter on training options help them get in top condition.

Gadd has been climbing since, in his words, “dinosaurs wore crampons to Sunday school,” and in this new edition he shares what you need to know to have fun while climbing ice and mixed routes.
WHAT BIRDS EAT
How to Preserve the Natural Diet and Behavior of North American Birds
KIM LONG

A unique approach to bird-watching that focuses on what birds eat and how, while sharing ways to support them in our own backyards

- Explains bird physiology and natural diets, including detailed profiles of their food preferences
- Robust selection of photographs and illustrations

The more than 900 bird species in North America have natural diets ranging from seeds, foliage, nectar, and nuts to fish, insects, crustaceans, carrion, and mammals—and sometimes other birds! What Birds Eat explores the senses that birds depend on—sight, sound, odor, taste, and touch—and their food ingestion. Extensive feeding profiles then detail what various species eat naturally and how we can support those diets in backyards and feeders. What Birds Eat enriches our understanding, allowing us to engage more meaningfully with birds along the way.

KIM LONG is a writer, researcher, and graphic artist who has worked on a number of natural history projects throughout his career. He is the author or coauthor of 54 books and lives in Denver.

NORTHWEST TREES, 2ND EDITION
Identifying and Understanding the Region’s Native Trees
STEPHEN F. ARNO AND RAMONA P. HAMMERLY

“An essential companion for the amateur tree fan and a valuable source of information for the professional.”
—Jerry Franklin, College of Forest Resources, University of Washington

- Perennial favorite in a convenient field-guide size
- Concise natural history facts about more than 60 native species

No other guide offers Arno and Hammerly’s blend of expertise and visual artistry. Covering Washington, Oregon, Idaho, Wyoming, Montana, and British Columbia, they identify and illustrate more than 60 species of indigenous Northwestern trees by characteristic shape, size, needles or leaves, and cones or seeds. This essential guide includes an easy-to-use illustrated identification key based on the most reliable, non-technical features of each species and features the ecology and human history associated with all Northwest trees. A handful of historical photographs and 185 exceptionally accurate drawings bring these trees to life.

STEPHEN F. ARNO holds a PhD in forestry and plant science and is retired from a career as a research forester with the US Forest Service. Since 1973, he has authored or coauthored six books about forests and trees.

RAMONA P. HAMMERLEY is a native of the Puget Sound region. She illustrated the original edition of Northwest Trees in 1977 and also provided new illustrations for the 2007 anniversary edition.
GUIDE TO WESTERN NATIONAL MONUMENTS

MIKE ENDRES

AVAILABLE IN OCTOBER

360 pages | 6 x 9 | $28.95 | paperback
300 color photos | 60 maps | rounded corners

A beautiful guide to 76 national monuments from Colorado to California and Arizona to Washington

The Guide to Western National Monuments showcases 76 of the nation’s 122 public lands protected by a presidential decree. These are the best places to visit if you want to hike and camp in spectacular scenery with relatively few people (compared to national parks). Many of the monuments contain ancient ruins, pictographs, and petroglyphs that are still in good condition.

The Antiquities Act of 1906 gave the president authority to establish national monuments as an expedient method for protecting natural and historically significant areas in the United States. Theodore Roosevelt designated the first monument, Devils Tower, and established the long-standing tradition. Many previously designated monuments have changed to national parks or another federal status, while others have been transferred to state control. Nearly half of our current national parks began as national monuments.

Currently, 23 of the national monuments—including Bears Ears, Golden Butte, and Giant Sequoia—are under review and may be stripped of their protected status. This guide will help readers understand what may be lost to development.

• The top attractions in 76 national monuments in 11 states (AZ, CA, CO, ID, MT, NM, NV, OR, UT, WA, WY)
• Includes 17 national monuments currently under administration review
• Features spectacular color photos, maps, trailhead directions, and details about each monument

• A hand-picked list of the top backcountry ski trails within a two-hour drive of Fort Collins, Boulder, Denver, or Colorado Springs
• Features outings for everyone—from gentle trails in the trees to climbs of Colorado’s highest peaks
• Includes color maps and photos with detailed route descriptions

Backcountry skiing is one of the fastest growing segments of outdoor recreation, and The Best Ski Touring Routes: Colorado’s Front Range connects readers with the most classic ski trails that can be day-tripped from every major Front Range city. Whether you’re coming from Denver, Boulder, Colorado Springs, Pueblo, or Fort Collins, this guide showcases breathtaking outings right in your backyard.

The routes range from beginner-friendly outings to demanding high-altitude mountaineering. Co-written by Alan Apt, author of the bestselling Snowshoe Routes: Colorado’s Front Range, and Kay Turnbaugh, this is an essential new book for anyone seeking winter fun and adventure. It includes color topo maps and photos, information on avalanche safety, gear discussions and recommendations, and interesting sidebars.

ALAN APT has snowshoed, skied, hiked, climbed, and backpacked in Colorado for over 35 years. He’s a reformed peakbagger who has climbed many of Colorado’s highest mountains. Alan is a former local columnist for the Fort Collins Coloradan, and he has contributed to the Denver Post and Boulder Weekly. AVAILABLE IN OCTOBER

240 pages | 6 x 9 | $26.95 | paperback
150 color photos | 50 maps | rounded corners
ISBN 978-1-937052-56-0

Features 500 species of birds that live in or visit Colorado, most of which can be seen along the Front Range

• The best trails for sighting birds and awesome scenery along the Front Range
• Easy to moderate hikes suitable for most anyone
• Color maps and photos with detailed trail descriptions

Hiking and birding are two of the most popular pastimes in Colorado and across the country. The Best Front Range Bird Hikes is the first book to bridge these activities with information about the best trails for finding birds, as well as information about what trails might host species of particular interest.

Covering the region from Colorado Springs to Fort Collins, emphasis is placed upon describing trails that combine great scenery, historic interest and, of course, great birding. This is an excellent guide for those new to birding, visitors from out of state, and experienced birders looking to add to their life list.

PHILIP FERRANTI has hiked the western United States for more than 30 years. He has spent much of that time exploring the trails in and near Palm Springs and the Coachella Valley. He founded the Coachella Valley Hiking Club in 1992, has written for Backpacker magazine, and is a frequent guest speaker at outdoor hiking conventions. He has written fourteen books, including Hiking! The Ultimate Natural Prescription for Health & Wellness and Colorado State Parks: A Complete Recreation Guide.

NORM LEWIS was introduced to birding in 1984 and immediately became addicted. He currently leads birding outings and tours for the Denver Museum of Nature and Science, and is a past president of the Colorado Field Ornithologists and Denver Field Ornithologists.

• 25th Anniversary Edition includes five brand-new hikes
• Covers popular regions such as the San Jacinto Mountains, Coachella Preserve, and Joshua Tree National Park
• A #1 regional bestseller for more than two decades

For 25 years, the bestselling 140 Great Hikes in and near Palm Springs has served as a staple for anyone exploring the trails surrounding Palm Springs, California. This revised seventh edition, in honor of the book’s 25th anniversary, contains five brand-new routes, updated trail descriptions, and modern color photography. Perfect for locals and visitors alike, this guide includes family friendly adventures, spring flower hikes, full-moon walks, dog-friendly frolics, and challenging hikes in the desert and mountains of the Coachella Valley.

PHILIP FERRANTI has hiked the western United States for more than 30 years. He has spent much of that time exploring the trails in and near Palm Springs and the Coachella Valley. He founded the Coachella Valley Hiking Club in 1992, has written for Backpacker magazine, and is a frequent guest speaker at outdoor hiking conventions. He has written fourteen books, including Hiking! The Ultimate Natural Prescription for Health & Wellness and Colorado State Parks: A Complete Recreation Guide.

Attractive, full-color pocket guides to the best walks, hikes, and runs in these vibrant, growing areas

• Fresh air and exercise on terrific trails just minutes from home
• 50 trails in Spokane and Kootenai Counties, including the Centennial Trail

Longtime outdoors writer Rich Landers teamed up with Coeur d’Alene native David Taylor to write this new volume in the bestselling Urban Trails series. In addition to the paved 63-mile Centennial Trail described in seven approachable segments, Spokane-area highlights include the Finch Arboretum, the Fish Lake rail-trail, High Drive Bluff, Riverside State Park, Turnbull National Wildlife Refuge, Mount Spokane State Park, and more. Around Coeur d’Alene, some featured destinations are Tubbs Hill, Canfield Mountain and Fernan Lake natural areas, Black Bay in Post Falls, Cougar, and Blue Creek Bay.

As the outdoors editor for The Spokesman-Review, RICH LANDERS explored and covered the region’s outdoors scene in stories, columns, blogs, and photos for 40 years. He is the author or co-author of four guidebooks including Day Hiking Eastern Washington.

DAVID TAYLOR grew up in Idaho and is a retired federal employee. He has hiked throughout the Northwest.

Both authors live in the Spokane/ Cœur d’Alene area.

• First guidebook for this fast-growing area
• Written by Washington’s most recognized outdoor author

This new addition to the Urban Trails series of popular, close-to-home trails is designed for people of all fitness levels, from walkers to runners to cyclists, who want to get outside for fresh air and some exercise without a long drive or the need to do any planning.

Urban Trails: Vancouver, WA covers all of Clark County (population approximately 500,000) from the Columbia River to the trails in the Yacolt Burn State Forest, as well as the Longview–Kelso and Kalama areas in neighboring Cowlitz County. Beyond the trails in Vancouver itself, the guide features hikes in Battle Ground, Ridgefield, La Center, Camas, and Washougal. Highlights include Lewis and Clark Expedition sites, American Indian sites, Fort Vancouver, and the city’s historic downtown.

Prolific outdoor author CRAIG ROMANO’S relationship with Vancouver goes back more than two decades—his wife Heather grew up there and he has spent a considerable amount of time running and hiking the city and area’s trails with his family. Craig is a member of the Friends of the Columbia Gorge and the Columbia Land Trust and writes for the Mount St. Helens Institute’s publication, Rumblings.

384 pages | 5½ x 8½ | $24.95 | paperback
60 b&w photos | 23 maps
Guidebook/Washington/Hiking | Rights: World

A guidebook so beloved, its fans teamed up to create this new edition

- The most comprehensive and authoritative guide to the Olympics, first published more than 35 years ago
- Sales of this new edition will benefit Olympic Mountain Rescue

Olympic Mountains Trail Guide is a treasured, classic guidebook to one of the region’s top hiking destinations. Reading Bob Wood’s text is like having an old friend describe last weekend’s hike to you. Wood passed away in 2003 but Bill Hoke, Doug Savage, and volunteers from the Peninsula Wilderness Club put on their hiking boots to research this thorough update.

Every trail has been rehiked and fact-checked. Every new trailhead or rerouted path is documented in the descriptions, and 30 all-new trails have been added, bringing the total number of hikes within Olympic National Park and Olympic National Forest to 206. Olympic Mountains Trail Guide remains the ultimate resource for this hiker’s paradise.

ROBERT L. WOOD first saw the Olympics in 1946. From then on, he spent countless hours and walked thousands of miles exploring the range and writing about it. He wrote four respected histories about Olympic National Park. Wood died in 2003 at the age of 78, having lived a full life.

WILLIAM E. HOKE grew up in the Midwest. Shortly after moving to the Pacific Northwest, he graduated from the Mountaineers’ Basic Climbing course. He has led summit climbs of Washington’s volcanoes and hiked more than 2,000 miles in Olympic National Park, much of it solo. Bill was an outdoor columnist for the Kitsap Sun and is the author of River Voices on the Duckabush: Poems and Life Stories. He lives in Bremerton, Washington.

Pedal through Yellowstone National Park, Devils Tower National Monument, Mt. Rushmore National Memorial, the Black Hills, Badlands National Park, and along rolling Minnesota river plains

- Route connects the TransAmerica Trail at West Yellowstone, MT, to the Northern Tier at Minneapolis, MN
- Includes a wide variety of terrain including hills, mountains, and prairies
- Can be joined with other routes to complete a cross-country journey

Experience the diversity of scenic hot spots and variable terrain while riding this route. The 1,288-mile route consists of three maps, and includes two short alternates in the Black Hills and Badlands National Park. In 1872 Yellowstone became the first national park due to its hydrothermal wonders. It sits on top of a dormant volcano and features more geysers and hot springs than anywhere else on Earth. Devils Tower rises 1,267 feet above the Belle Fourche River and looms above the northeastern Wyoming landscape.

The Black Hills are an isolated mountain range in western South Dakota. Their name comes from the dark appearance of the trees that cover them, as seen from a distance. Mt. Rushmore National Memorial and other notable sites are located in these hills. One of the world’s richest fossil beds, Badlands National Park consists of pinnacles, spires, and sharply eroded buttes interspersed with the largest, protected mixed-grass prairie in the United States.

Award-winning artist and storyteller Jeremy Collins presents 12 new, hand-drawn works for 2021

• Drawings suitable for framing, printed on FSC-certified paper
• A perfect gift for the art or nature lover

Jeremy Collins is back with a new calendar for 2021. His art ranges from scenic paintings to journal sketches, all inspired by his wilderness adventures. Calendar dates include standard national holidays as well as dates relevant to the outdoor, conservation, and adventure communities—from Ansel Adams’s and Margaret Murie’s birthdays and World Soil or International Snow Leopard Day to helpful reminders to get out for a pre-Christmas hike or solstice camping trip. Each month includes a mini-essay by Jeremy about his artwork, inspirations, or environmental history, and action prompts to encourage community engagement.

Inspiration in your pocket, this journal will help you express your thoughts while you are out in nature

• Cover art by well-known outdoor artist Jeremy Collins
• Features a handful of Muir’s beloved quotes on wilderness and creativity

Jeremy Collins’s evocative cover portrait captures the ethic and spirit of John Muir, America’s godfather of appreciation for and adventure in the outdoors. This journal lets you take Muir on your own adventures with lightly lined pages on which artists can sketch and paint, while poets can write haiku or sonnets and naturalists can record their wilderness observations.

The John Muir Blank Journal is a great gift for outdoor enthusiasts. Beautiful yet inexpensive, it encourages you to observe and reflect on the wonder of nature—just what many people want in an adventure.

JEREMY COLLINS roams the earth with sketchbooks in hand, dumping his soul into their pages. It is in the folds of those pages that his particular worldview was born—from authentic travel and adventures as an exploratory rock climber to award-winning filmmaker and author.

• More than 150 backcountry maps for Western states
• Trails on each map individually hiked and recorded with GPS for accuracy
• Relied upon for more than 50 years by hikers, climbers, backpackers, backcountry skiers, snowshoers, and more

As every experienced backcountry adventurer knows, possessing solid tools for navigation is one of the Ten Essentials for a safe adventure. There are, of course, many technological options out there, but to truly be prepared there’s really nothing better than a paper map—and there’s absolutely no better map than a color topographic Green Trails Map. Fully vetted and high quality, Green Trails Maps are not only useful for trip planning but will keep backcountry travelers on track, long after the batteries have died on other navigational devices.

Each map includes:
• Trails coded for hikers only, as well as mountain bikers, horses, skiers, and snowmobilers
• Icons for parking and picnic areas, tent camping and RV spaces, bathrooms and backcountry toilets, points of interest, waterfalls, springs, and gates
• Dot-to-dot trail distances, contour intervals, adjacent map numbers, and permits required
• Land designations: national and state parks, national forest, wilderness, DNR land, private land, tribal land, and others

Sports/Mountaineering/Annual | Rights: World

With hundreds of reports, photos, and maps, the American Alpine Journal is the world’s most comprehensive and respected source for each year’s new climbs and expeditions.

• The AAJ goes beyond social media, video clips, and marketing copy with in-depth reports on major climbs, written by the climbers and carefully edited by a team of experts
• “Recon” sections cover the history, recent climbing activity, and new-route potential of a wild area. This year: the wild mountains of Tierra del Fuego.
• 2020 edition includes a special report: the state-of-the-art of women’s climbing

Published annually since 1929, the American Alpine Journal (AAJ) is renowned as the world’s journal of record for long new climbs of all kinds. The AAJ publishes each year’s most compelling stories, told by the climbers themselves and carefully edited by a team of experts. Each year, many newly discovered climbing destinations are revealed, from Alaska to the Karakoram.

Accidents in North American Climbing presents detailed accounts and in-depth analysis of rock climbing, mountaineering, and ski mountaineering accidents and rescues. Learn from the mistakes of others, so you’ll be a safer climber.

• Beginners and expert climbers alike rely on the stories and analysis in Accidents to become safer climbers.
• “Know the Ropes” and “Essentials” articles, written by certified guides and rescue professionals, offer focused how-to advice throughout the book.
• Look for increased coverage of avalanche incidents in 2020!

Since 1948, the American Alpine Club has documented the year’s most teachable climbing accidents, providing invaluable lessons to climbers. In Accidents in North American Climbing, each incident is thoroughly analyzed so climbers can avoid similar mistakes in the future. In our “Know the Ropes,” “Essentials,” and “Danger Zones” sections, professional guides and other experts offer in-depth instruction and copious illustration to help prevent avoidable accidents. This year, Accidents is increasing reports of avalanche incidents of all kinds.

The American Alpine Club is the leading organization representing climbers in the United States. The American Alpine Journal is written by hundreds of contributors from around the world. Accidents in North American Climbing is written and edited by a team of volunteers, staff, and regional correspondents. Dougald MacDonald is American Alpine Club Executive Editor.

Natural History/The West/Wildfires | Rights: World

Named one of Outside magazine’s 2019 “Contemporary Adventure Canon” titles

“Wildfire is a primer on both wildfires and firefighting. Hansen mixes history with interviews and descriptions, and the book has a nice you-are-there feeling . . . a book that defines the challenge of fighting the devastation that wildfires bring.” —The Denver Post

“Wildfire is a remarkable piece of immersive journalism. . . . An excellent and entertaining book at a critical time in the relationship between humans and fire.” —Peter Heller, author of The Dog Stars and Celine

“In Wildfire, Heather Hansen’s lively reportage . . . [and] expertly deconstructed insights come together in a taut final chapter that chronicles the July 2016 [Boulder, Co.] Cold Springs fire. This thoughtful book answers some questions about mitigating human and environmental effects but also warns of political and economic roadblocks.” —Foreword Reviews

Winner: 2017 Silver Nautilus Book Award in Science and Cosmology

“This Northwest transplant assumed locals were experts in the many forms of fluffy white or aggressively gray clouds that are a near constant in the Pacific Northwest. However, she found Washingtonians knew precious little about identifying the clouds. Her book blends science, wonder, and humor to take a scenic route through the clouds.” —425 Magazine

“A delightful exposition on clouds. [Ruth’s] personal experiences and asides enrich the well-explained technical details. A great recommendation for popular science readers, this book will also appeal to those who enjoy memoirs and learning about the writing process.” —Library Journal

MARIA MUDD RUTH is also the author of Rare Bird: Pursuing the Mystery of the Marbled Murrelet, a critically acclaimed natural history (Mountaineers Books). She lives in Olympia, Washington.

THE TRAD GUIDE TO JOSHUA TREE
60 Favorite Climbs from 5.5 to 5.9
The Pacific Coast bicycle route runs the length of the West Coast, from Vancouver, British Columbia, nearly 2000 miles to the Mexico border. This comprehensive guidebook to this venerable route—thoroughly researched, only

- Downloadable cue sheets for the full route
- Can’t-miss major sites (and kitschy local attractions too!)
- Descriptions designed to complement the ACA route maps
- Suggested itineraries for the entire route or shorter trips
- Details about campgrounds
- Airport and transit guidance for major cities
- In-depth tours of cities along the route
- Trip planning, packing, and safety advice
- Logistics for key route access points

• Plan your epic adventure with detailed route segments that include distances, elevation gain, descriptions, turn-by-turn mileage logs, and maps. Contemplate alternate routes and side trips, including the Olympic Peninsula in Washington, east to the San Juans, 2nd Ed.

- The Best Road Biking Routes

- 75 CLASSIC RIDES:
  - COLORADO
  - NORTHERN CALIFORNIA
  - OREGON
  - WASHINGTON

- 50 SELECT SINGLETRACK ROUTES:
  - MOUNTAIN BIKE BEND
  - MOUNTAIN BIKE TAHOE
- BIKING PUGET SOUND: 60 Rides from Olympia to the San Juans, 2nd Ed.: Thorness. 320 pages, 5½ x 8½, 75 b&w photos, 60 route cue sheets, 60 elevation profiles, 61 maps, downloadable cue sheets, pb, $19.95, 978-1-59485-890-1.
There is nothing more fun than riding a bike on a sunny day—the corollary of which is that once you get addicted to pedaling you’ll be riding regardless of the weather. Start—or foster—your two-wheeled addiction with these helpful, authoritative maps from the Adventure Cycling Association.

Each: $15.75, sizes are folded, two sided, water resistant, full color.
