RE: Nonhighway and Off-Road Vehicle Activities (NOVA) Education and Enforcement Snoqualmie Corridor and Middle Fork Valley E&E (20-2130 EDU)

Dear evaluation committee members,

The Mountaineers write to express our support for the Washington State Department of Natural Resources' (DNR) proposal to fund an education and enforcement program in the Snoqualmie Corridor and the cross-jurisdictional DNR and US Forest Service (USFS) seasonal staff person focused in the Middle Fork Snoqualmie River Valley.

The Mountaineers, based in Seattle, Washington and founded in 1906, is a nonprofit outdoor education, conservation, and recreation organization whose mission is “to enrich the community by helping people explore, conserve, learn about and enjoy the lands and waters of the Pacific Northwest and beyond.” The Mountaineers Books publishing division expands the mission internationally through award-winning publications including instructional guides, adventure narratives, and conservation photography. 1,600 skilled volunteers lead 3,200 outdoor education trips and courses annually for 14,000 members. Our youth programs provide over 10,000 opportunities each year for children to get outside. We are a passionate, engaged, and knowledgeable community that cares about the outdoors, and protects the outdoor experience for current and future generations.

The Snoqualmie Corridor includes some of most popular accessible outdoor recreational opportunities in Washington year-round, including Mount Si, Little Si, Rattlesnake Mountain, Poo Poo Point, Tiger Mountain, and many others. The Middle Fork Snoqualmie Valley is a very important area to our members for our hiking, scrambling, trail running, and rock climbing trips and courses close to the greater Seattle area. Its mountain peaks, alpine lakes, old-growth forests, whitewater rivers, and strong native trout runs are all located within an hour's drive of downtown Seattle.

After the completion of the Middle Fork Road reconstruction project in the fall of 2017, the valley is now more accessible than ever before. These positions will provide high quality and sustainable recreation along the river, both up in the Middle Fork Valley and down near the Cities of North Bend and Snoqualmie, for users of all ages. The Mountaineers support this educational project in order for DNR to
