**Conservation Committee**

The Foothills Conservation Committee celebrated National Climber's Stewardship Day on June 15, repairing the Little Si Trail with partners from Seattle Outdoor Adventurers, the Mountains to Sound (MTS) Greenway, and the Washington Climber's Coalition. The group moved roughly 4 tons of soil and fill to repair a critical segment of badly damaged trail.

They received big thanks from the MTS Greenway for contributing to a positive work environment on this critical maintenance project, as well as for providing ongoing support of trail maintenance in the North Bend vicinity. Land managers at the Department of Natural Resources were very impressed by the before and after photos, saying “It’s beautiful. Totally, sincerely - that looks great.” There were 15 participants from the Foothills branch at this event.

Registration is now open for the [Wilderness Navigation](#) course starting September 4. This class prepares students for the rigors of backcountry and off-trail navigation. Those who complete this class will earn both a [Basic Navigation Badge](#) and a [Basic GPS Badge](#).

**Trail Running Committee**

**Frontcountry Trail Running**
The Foothills Trail Running Committee successfully held its second *Introduction to Frontcountry Trail Running* Course in May and June. We are pleased to announce that 100% of our students graduated and earned the brand-new *Trail Running Fundamentals* skills badge. We are proud of our frontcountry students! There was a lot of enthusiasm and we anticipate offering this course again in 2020.

**Backcountry Trail Running**
Our new, more advanced *Introduction to Backcountry Trail Running* course began on June 13, with backcountry trail runs scheduled through the first week of September. This class is designed to introduce participants to trail running in more remote wilderness locations. Students will earn the new *Backcountry Trail Running Course* badge. This badge is required for participation in backcountry trail running trips that the Foothills Trail Running Committee offers, and will allow members to plan, organize, and lead trail runs in backcountry terrain.

**Ultra Running**
Ever thought of running an ultramarathon? Learn how to get started with an expert panel at the *Introduction to Ultrarunning Seminar* on September 17 at the Lewis Creek Park Visitor’s Center in Bellevue.
