

**THE
MOUNTAINEERS**

Essentials of Trip Planning for Backpackers

April 23, 2024– 6:30pm

CHERYL TALBERT AND BRIAN TALBERT, MOUNTAINEERS BACKPACK LEADERS
PLEASE MUTE AND TURN OFF YOUR VIDEO WHEN YOU JOIN

Essentials of Trip Planning for Backpackers Outline

- ▶ I have an available time slot - Where should I go?
- ▶ What permits will be required?
- ▶ Will the conditions be suitable and safe for my skill level?
- ▶ What route should I take? How long will it take me?
- ▶ How do I get there? How do I get out in an emergency?
- ▶ What gear and food do I need?

NOTE: A PDF and recording of this presentation and key reference worksheets will be emailed tomorrow to everyone registered for the session

Essentials of Trip Planning for Backpackers

Scope for today

★ ***This is a basic overview of a structure and tools for planning an on-trail backpacking trip***

- ▶ The best learning approach is to jump in and start planning an actual trip – then pursue more learning about the parts that you want to understand more

Essentials of Trip Planning for Backpackers

Choosing your destination

First you need to nail down:

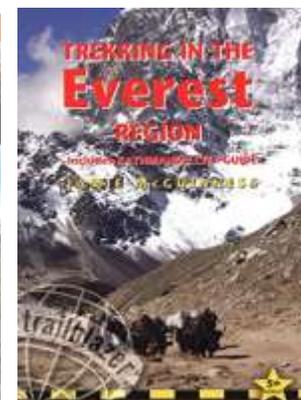

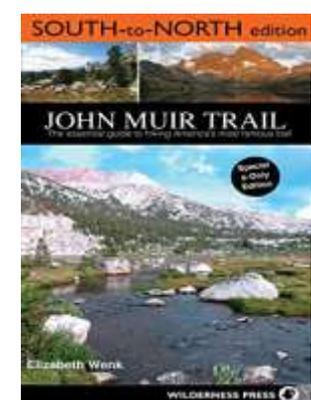

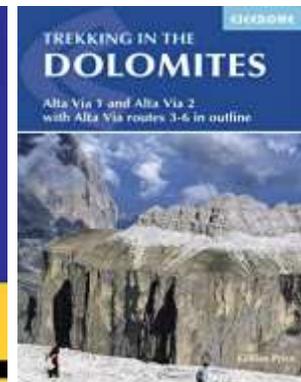

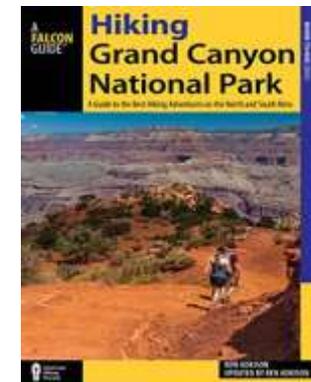

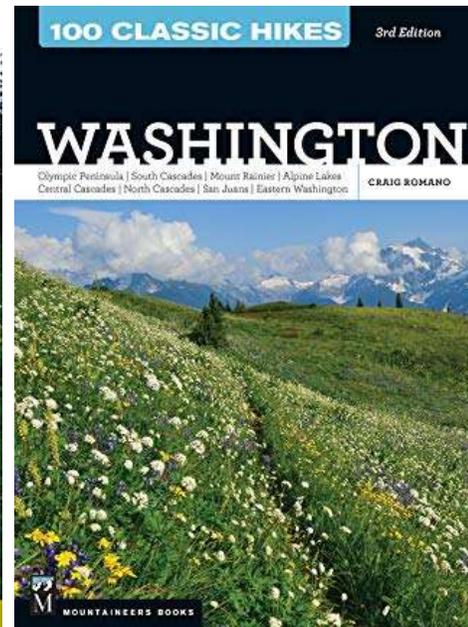

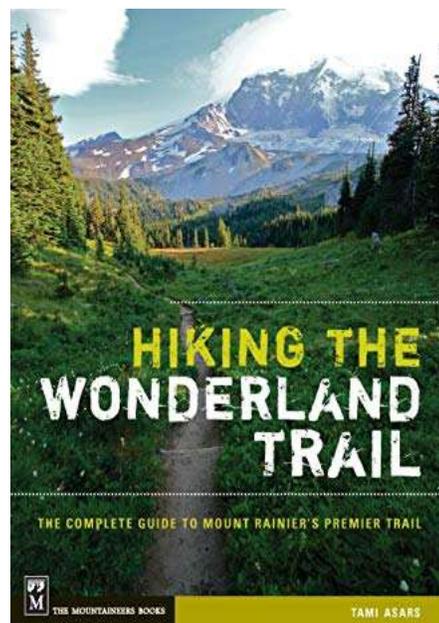

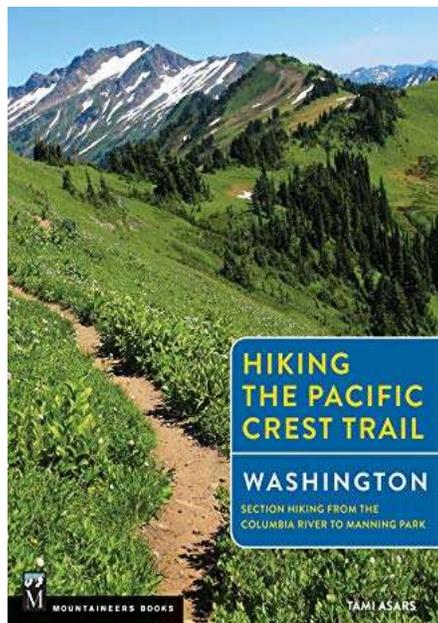

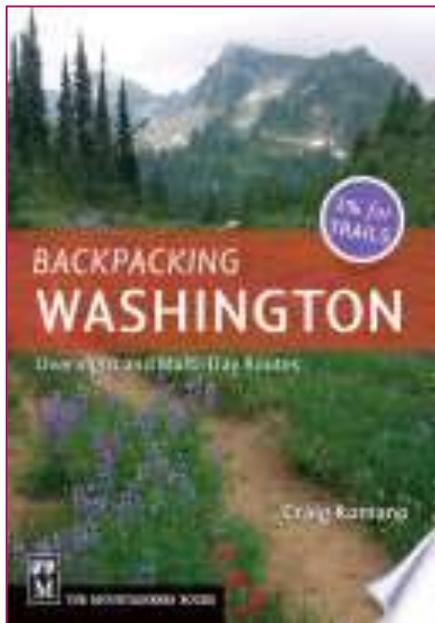

- ✧ The dates when you want to take your trip
 - *Will drive what places are accessible when you want to go*
- ✧ How much time you have?
 - *To get there and back, and to walk*
- ✧ *Do you need a backcountry camping permit to do the route you want to do, and are permits available for your dates?*
- ✧ What daily distance and elevation gain is reasonable for you?

Essentials of Trip Planning for Backpackers

Choosing your destination

Start by investigating your options in the geography and season/month you want to visit

Go Outside ▸ New to Hiking ▸ Backpacking 101 ▸ Weekend Backpacking Trips

Weekend Backpacking Trips

After catching the backpacking bug with some overnight trips, you may be eager to immerse yourself in the backcountry with some longer hikes. This gives you the opportunity to push beyond what day hikers can get to and really experience some solitude - and some fantastic destinations!

The backpack trips described here are all between 15 and 23 miles - they generally can be hiked in two days (one night), but several would be much more enjoyable if you take three days. Most have side trips you won't want to skip, and all have fabulous views to absorb. Better yet, three of the featured trips are loops and one is a traverse. The scenery surely won't get old!

Before you go, take the time to review some of our great [backpacking information here](#). Now on to the hikes!

North Cascades

GOLDEN HORN - SNOWY LAKES

Location: Hwy 20 - Rainy Pass
Round Trip: 23 miles (2-3 days)
Elevation Change: 2700'
Season: August - September

Go Outside ▸ New to Hiking ▸ Backpacking 101 ▸ Overnight Backpacking Destinations

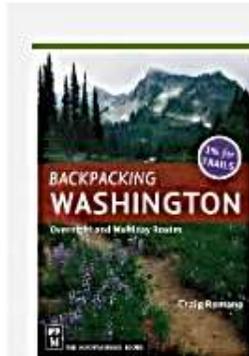

Overnight Backpacking Destinations

We've selected 14 trails that are perfect for novice backpackers, or for those interested in backpacking trips with lower mileage and more time for relaxing and enjoying the scenery. On them you can explore various regions of the state and experience the diverse beauty Washington has to offer. If you're tired of crowded campgrounds, and long for quiet camping out under the starry sky, you should try backpacking. No reservations are needed (unless you are in a national park), which allows you to go where the sun will be. And backpacking allows you to stay at your destination instead of having to tear yourself away after eating your lunch.

You may notice that many of these destinations are also day hikes. Extending a day hike into a longer overnight trip adds an entirely new experience, with opportunities to watch the sun rise and set, stargaze and escape the crowds.

New to backpacking or want a refresher on what to pack and how to keep camp? Check out our Backpacking 101 series:

- Backpacking 101: On the Trail
- Backpacking 101: Planning Your Trip

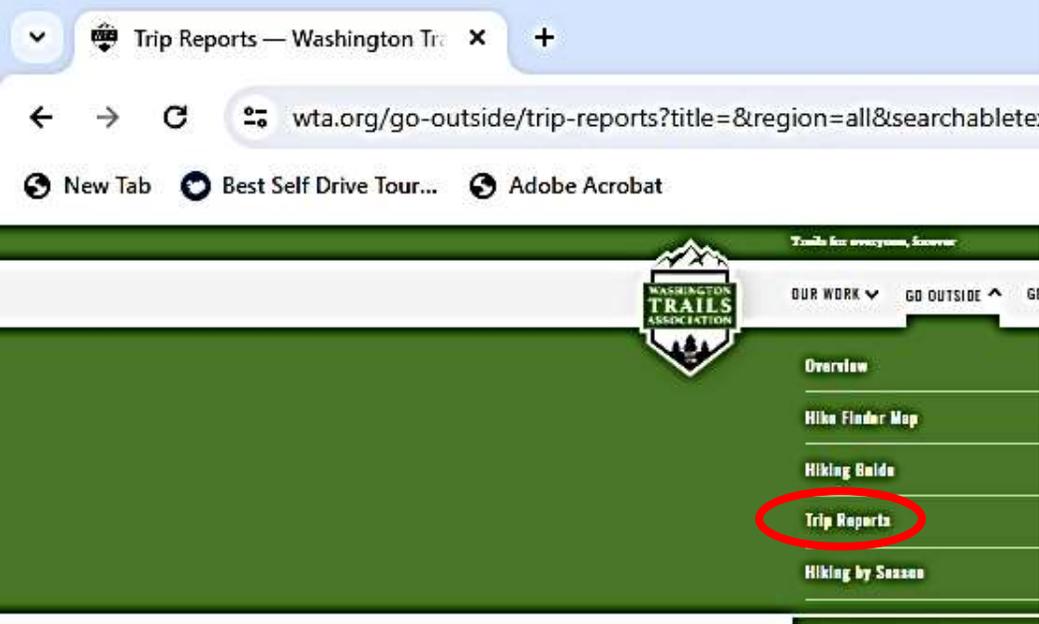

Interested in a longer trip? The new book, *Backpacking Washington*, has 70 multi-day routes. Read WTA's review [here](#).

Washington Trails Association – wta.org

Elwha River and Lillian River — Apr. 20, 2024

OLYMPIC PENINSULA • NORTHERN COAST

Started from the Madison Falls trailhead a little after 8am on a MTB with the goal of getting all the way into Elkhorn campground on the Elwha River Trail for an overnight. Immediate found the reroute trail around the road washout.

Turned at the bypass trail and immediately ran into a few difficulties. The reroute is doable on a decent MTB if you are an experienced rider, but I am not that and the extra weight of my overnight pack made it fairly challenging, so I ended up walking about half of it while pushing the bike.

After I made it around the bypass (~15 mins), it was just a few minutes to the Whiskey Bend gravel road. My GPS said that this was going to be 6.5 miles at 4% avg grade, but that didn't give it nearly enough credit. Several grade reversals made the actual climbing closer to 7-8% with extended stretched up around 12%. Without a pack on, this would be pretty fun ride, but fully loaded down it was quite a slog with several sections that I just had to walk.

After the grunty climb, pull into the Whiskey Bend trailhead and get ready to start walking. Trail is gorgeous basically from the moment you start and that doesn't really stop being so for the whole hike. Mostly flat terrain (for ONP at least) and the grades are very managable until you get to Humes Cabin 1.8 miles in. A sustained climb gains a few hundred feet of elevation and begins your time up and away from the Elwha river.

Moderate grades for the next few miles until you reach the fork for the Lillian River trail. I ignored that fork and

Hiking Elwha River and Lillian River

The Elwha River trail cuts through Olympic National Park north to south, providing a wide, well-maintained path to destinations and camps all the way to the North Fork of the Quinault River, on the southwest side of Olympic National Park. This means that you can create a hike just about as long as you can go, but Lillian River marks the furthest most day hikers will likely want to

**THE
MOUNTAINEERS**

Choosing your destination

Do you need a wilderness camping permit? Can you get one for your dates?

Many national parks and popular wilderness areas around the country and in Canada now require permits to camp in the backcountry.

▶ Some operate by lottery, others by first-come-first-served

ALWAYS start by looking up the land manager and Wilderness or Backcountry Camping to find their latest permitting process. Most open in the winter or early spring for the following season.

Washington Trails Association has an excellent overview of permit requirements for backcountry camping in Washington, as well as parking permit requirements

Choosing your destination

Climate Information

Is your destination suitable and safe for the dates that you hope to go, given your skill-set and gear?

- ▶ Temperature, precipitation expectations for the month
- ▶ Then more detailed near term forecasts as the date gets closer:
 - Temp, precip
 - Snow levels
 - Fires, smoke
 - Road conditions, closures

Land Manager Websites, WADOT

▶ **Baker-Snoqualmie National Forest**

- ▶ Check your trail – passable? Snow free? Trailhead open?
- ▶ Check the access roads, notes about parking lots
- ▶ WSDOT alerts

Now let's plan your specific route!

★ Use Maps and Map Tools to understand and plan:

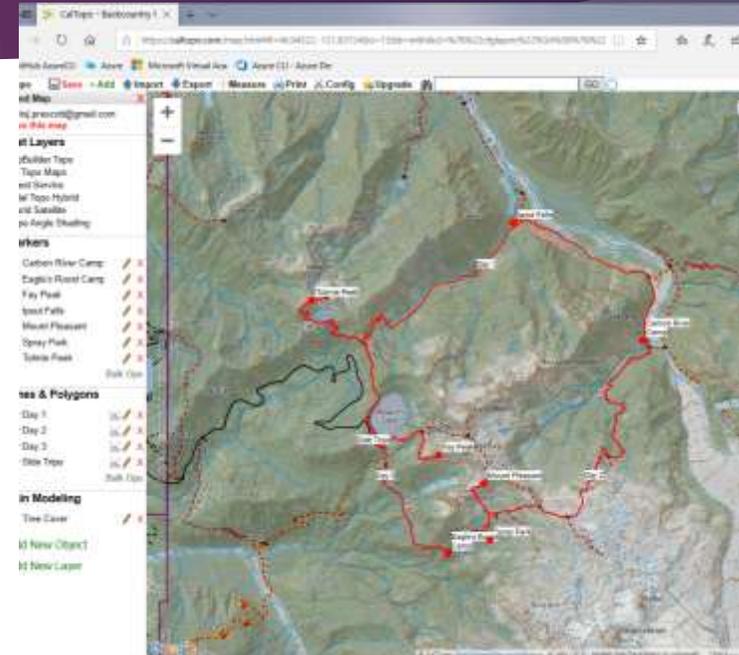

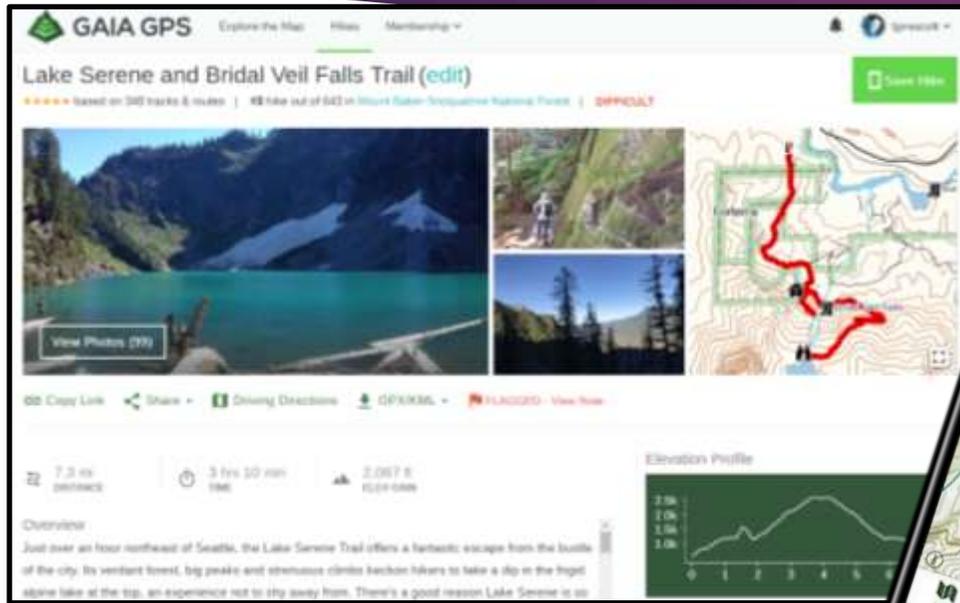

- ▶ Overall route including where to start and end
- ▶ Daily route segments
 - ❖ Level of difficulty
 - ❖ Camp options
 - ❖ Water sources
- ▶ Transport options and travel route-time
- ▶ Emergency exit routes

Paper vs. Online Maps

- ✦ **I always study a paper map before a trip for big-picture planning, and bring it for backup in case my phone fails during a trip**
- ✦ But for planning purposes, digital maps offer huge benefits:
 - ▶ Many more perspectives, scales and types, and basic mapping and planning functions are free!
 - ▶ Can use interactively to map out route options, distances and gains.
 - ▶ Can get map information for places, and at scales, for which commercial paper maps aren't available.
 - ▶ Most can be printed to high quality.

Digital Mapping Resources

GaiaGPS

CalTopo

GaiaGPS

- ▶ Available for iOS and Android.
- ▶ Consistently receives the highest praise from Mountaineers navigation committees.
- ▶ Base app is free, 40\$/yr for Premium plan.
- ▶ Mountaineers members receive one year of GaiaGPS Premium subscription FREE. Go to Membership → Benefits

Pros

- ▶ **Simple route plotting, with output of distance-elevation profile.**
- ▶ **Many helpful map options and layers (especially in Pro version)**
- ▶ Syncs automatically with GaiaGPS app for navigation in the field.
- ▶ Can export route data easily for use in other devices and apps

Cons

- ▶ Inferior map printing.
- ▶ Fewer customization options.
- ▶ Terrain statistics not as good.
- ▶ Can substantially overstate elevation gains and losses

GaiaGPS

- ▶ Free Plan: Access to all planning features including creating routes and waypoints that can synch to the phone app, and organizing, backing up, and sharing your data, and more.
- ▶ Premium Plan: Adds specialty maps (including NatGeo Trails and weather maps, international maps) and layers (snow level, smoke etc.), the ability to download maps & routes to your phone for offline use, and the ability to print custom maps.

CalTopo.com

Pros

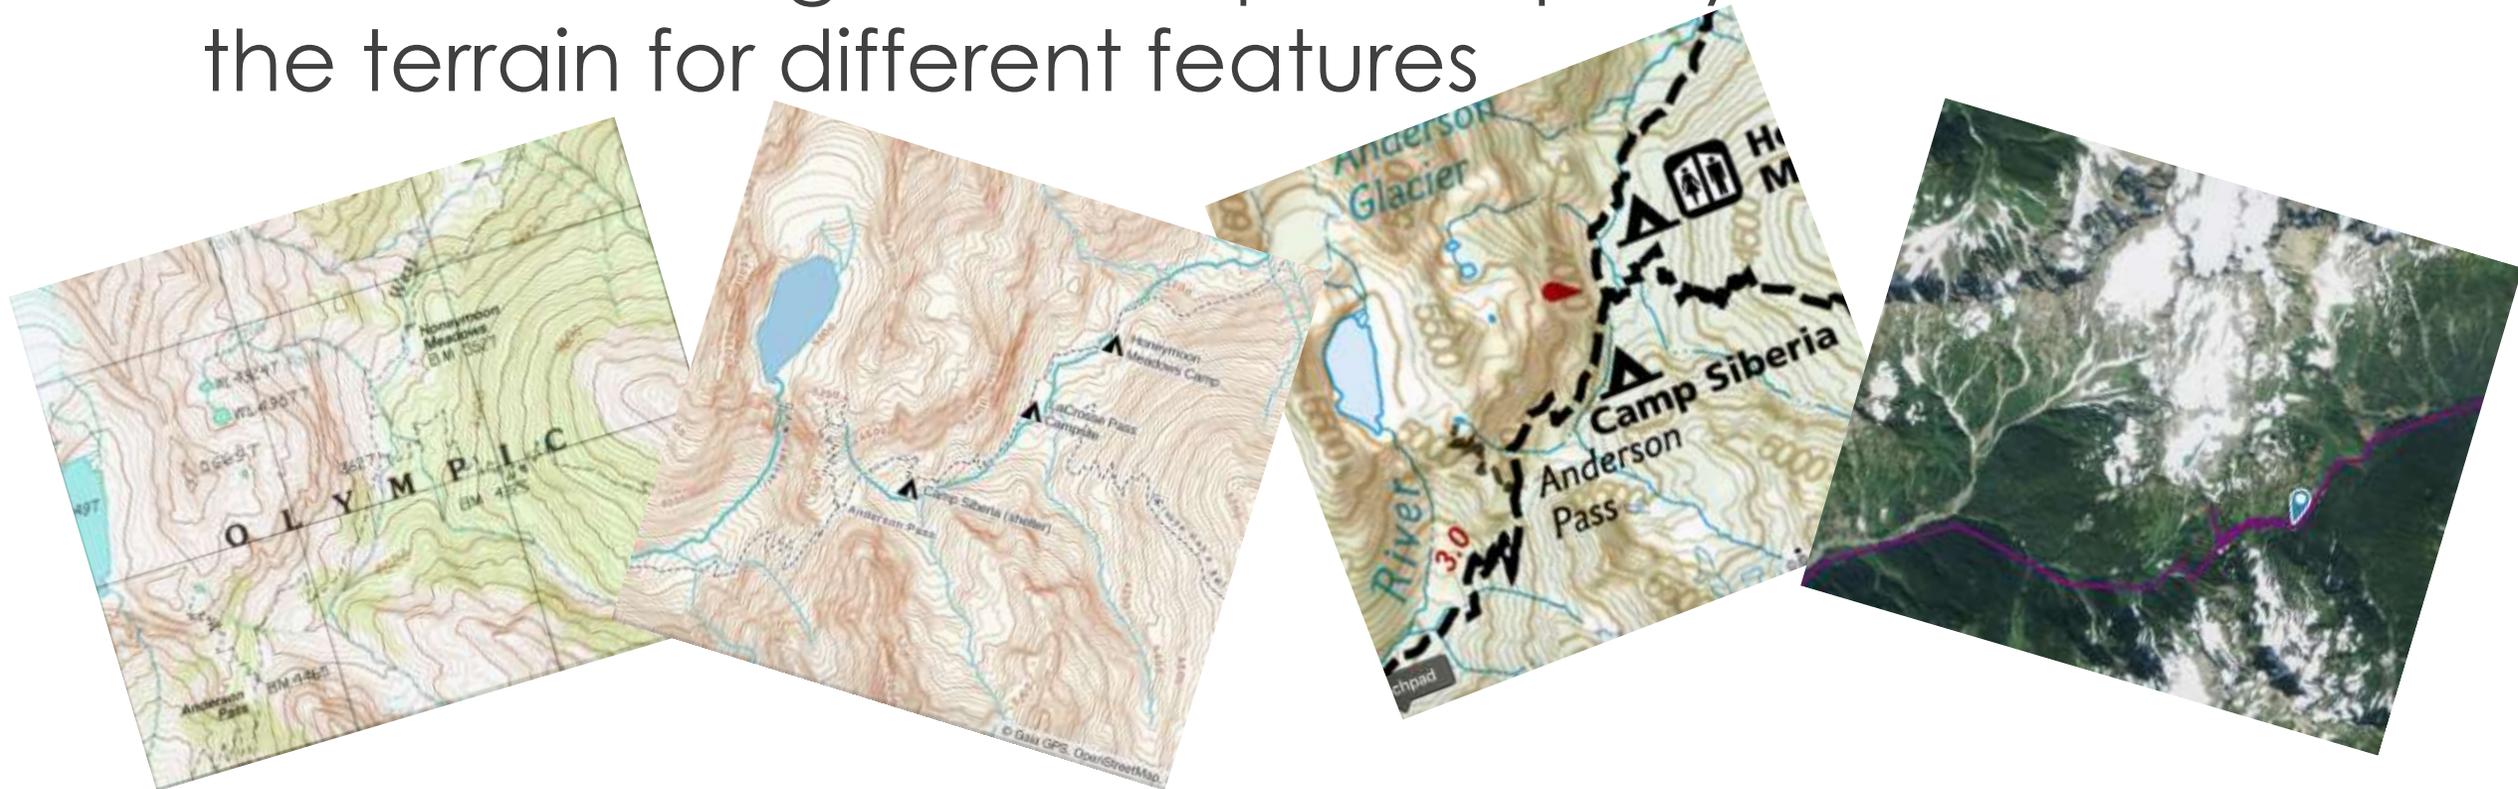

- ▶ **Superior map printing**
- ▶ **Detailed statistics and overlays**
- ▶ More robust drawing and editing
- ▶ More drawing primitives (shapes, bearing lines, etc)
- ▶ Many useful layers
- ▶ Greater accuracy for elevation gains and handy terrain profile detail

Cons

- ▶ Less beginner-friendly.
- ▶ Fewer layers and overlays than Gaia.
- ▶ Free account limited to 5 saved maps.

Map Layers and How they Differ

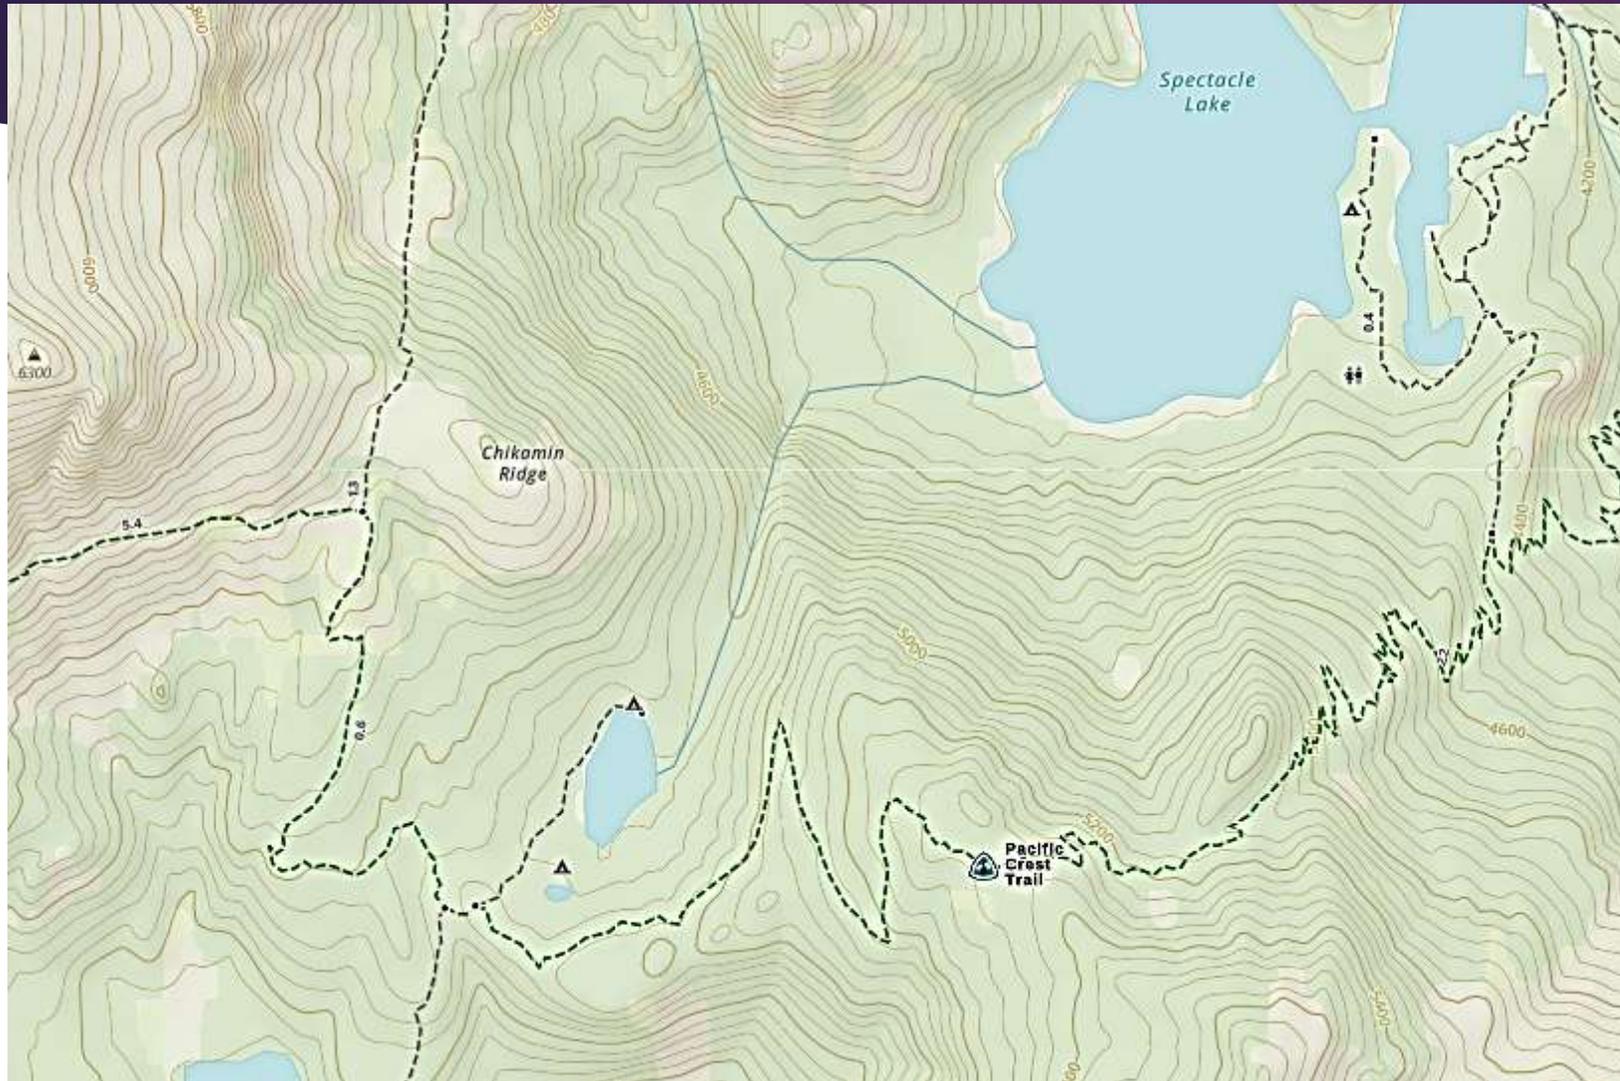

- ▶ Take advantage of multiple map layers to examine the terrain for different features

Map Layers and Advantages

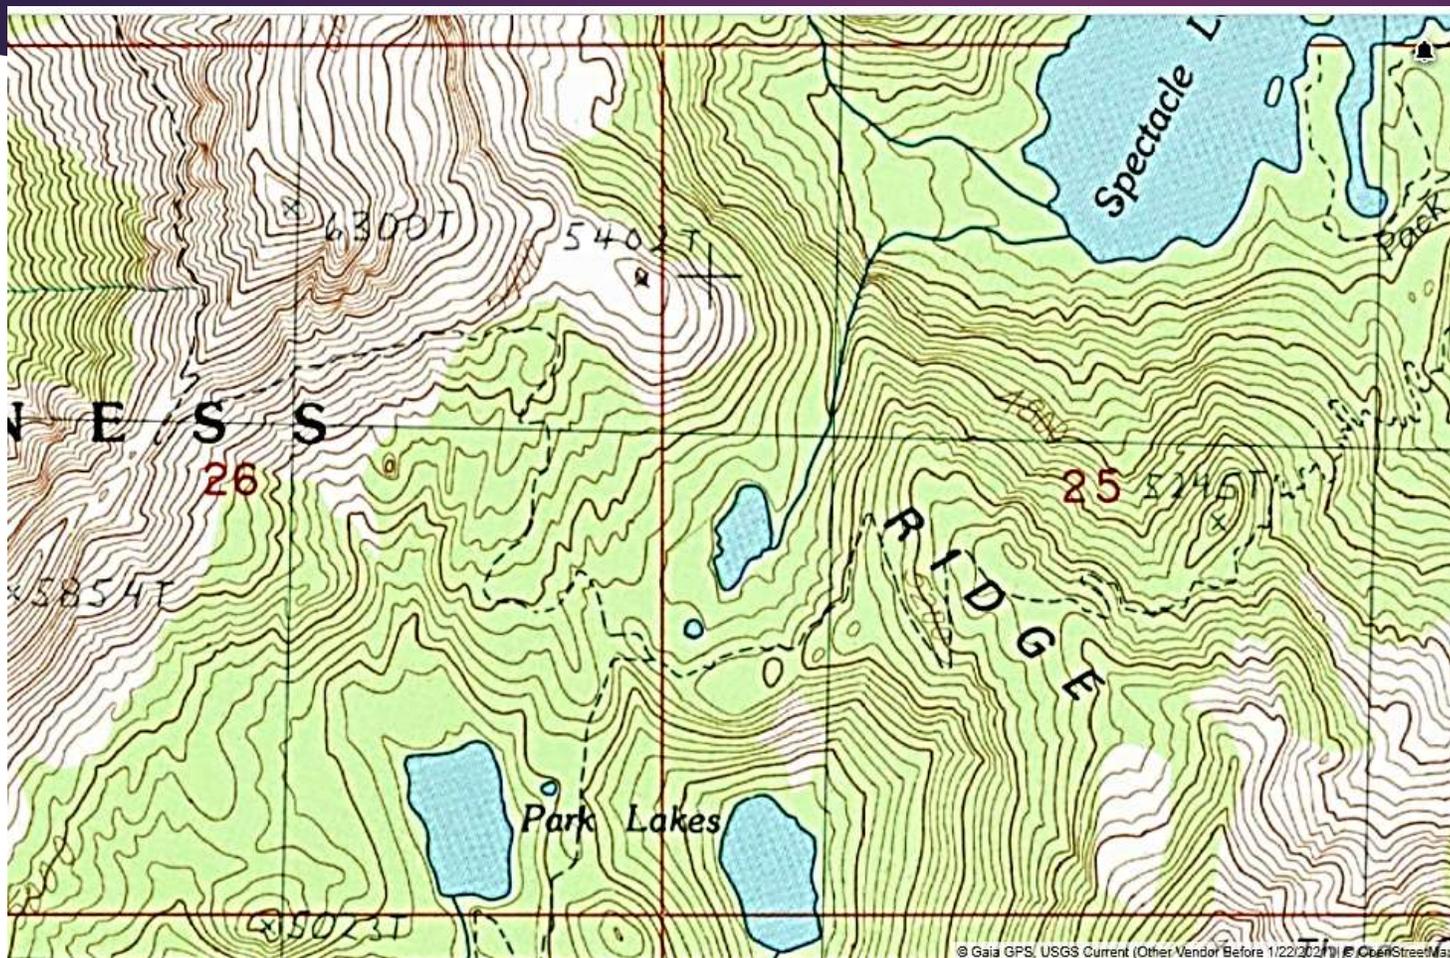

**THE
MOUNTAINEERS**

Gaia Topo

- **Default**
- **Helpful details including trail distances and camp locations**
- **Good topo**
- **International**

Map Layers and Advantages

USGS

- The most topo detail
→ ideal for off-trail navigation
- But little or no trail, camp detail
- No international coverage

Map Layers and Advantages!

NatGeo Trails Illustrated:

- Excellent detail for some areas, absent for others

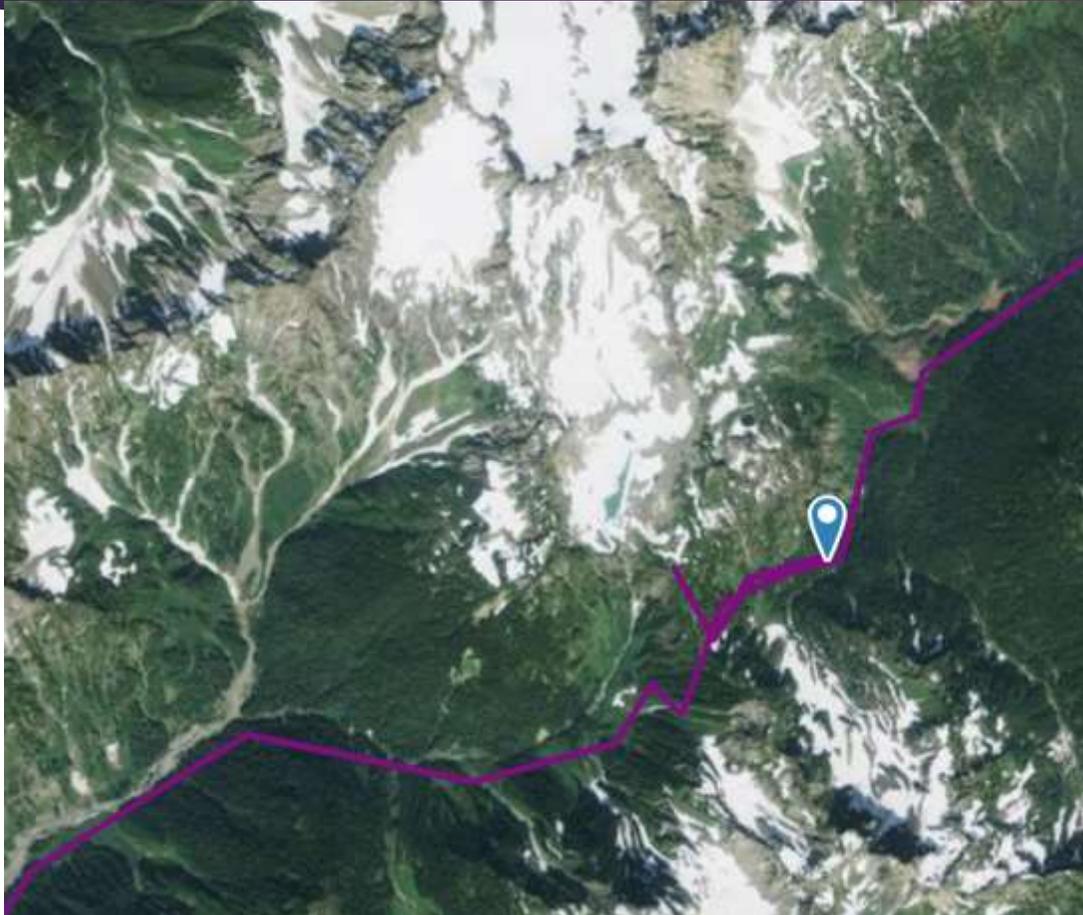

Map Layers and Advantages!

NatGeo Pacific Crest Trail:

- Best detail along the PCT, none elsewhere

Map Layers and Advantages

Satellite:

- Sometimes offers insights on terrain, snow if cloud-free

Map Layers and Advantages

Google Earth:

- Best terrain visuals – 3D
- Not a Gaia Layer but can export Gaia routes to Google earth easily! (.kml)

**THE
MOUNTAINEERS**

PCT Section J:
Snoqualmie to
Stevens Pass

**STEP 1: PLAN DAILY
ROUTE AND CAMPS**

**THE
MOUNTAINEERS**

Big Picture

- ▶ *How long is the trip (distance, gain)?*
- ▶ *Which direction do you want to go?*
- ▶ *How many days should you plan for?*

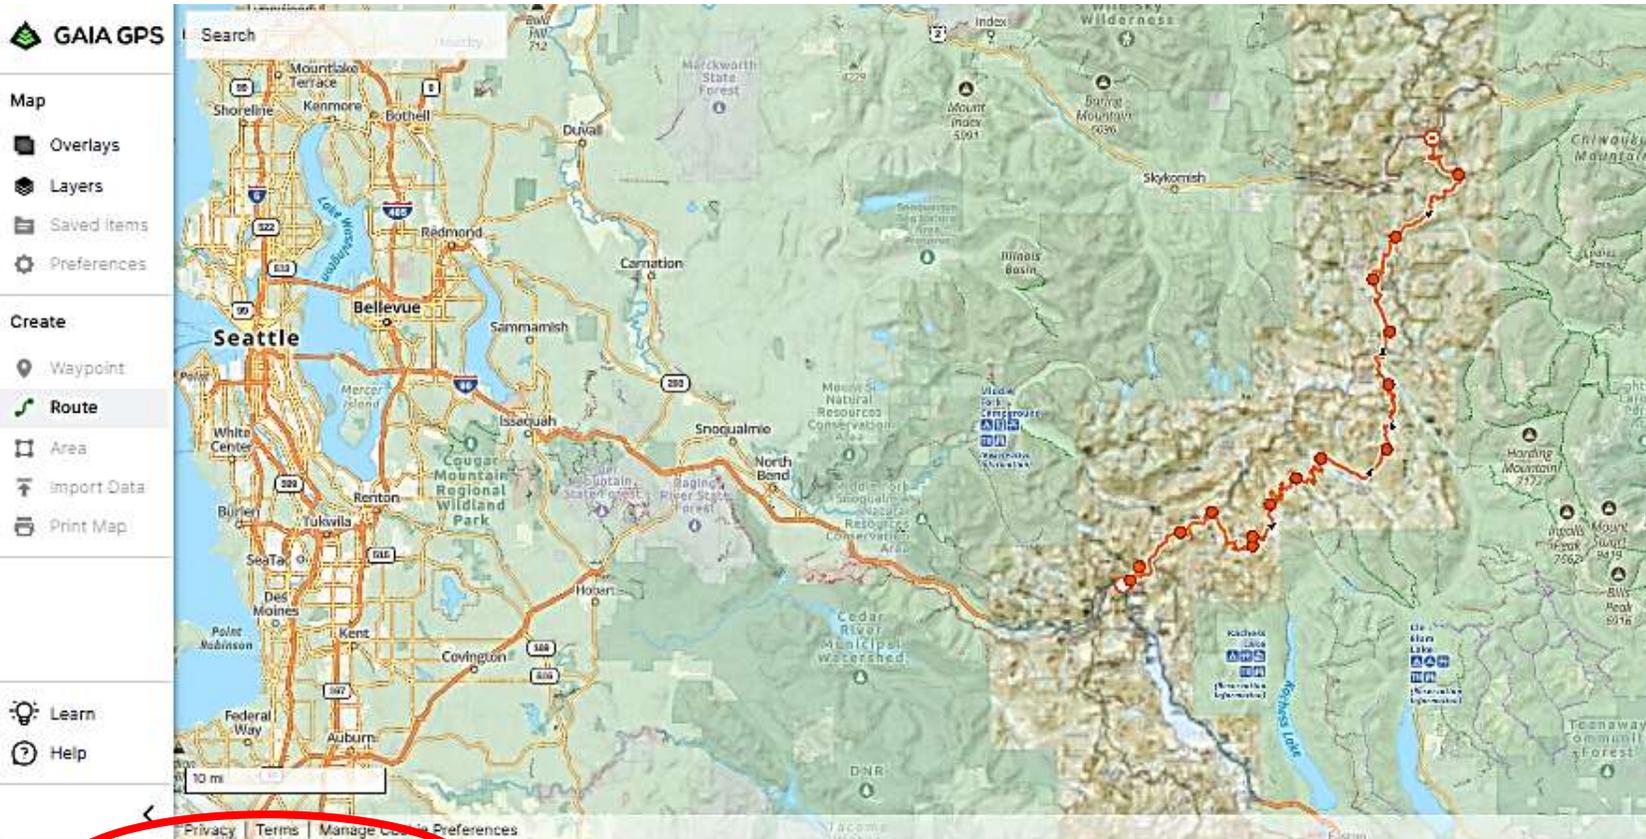

GaiaGPS for route planning

- Let's try this for PCT section J!

- Start by building a distance-elevation profile using **GaiaGPS**
- Start with base map – find the PCT between Snoqualmie and Stevens Passes
- Then Log in to get premium layers → Nat Geo PCT Map
- Trace a route between Snoqualmie Pass and Stevens Pass

First plot a route that covers all of Section J.
(arbitrarily started at Snoqualmie Pass)

1. Stevens Pass is higher elevation than Snoqualmie, so less gain going southbound (SOBO)
2. The first few days going SOBO from Stevens (when you have the heaviest packs and are getting in shape) are relatively less grueling
3. **This profile argues for a SOBO trip** (if you can work out the transport logistics)

71.5 mi ↑ 23,189 ft ↓ 22,090 ft

Untitled Route

Big Picture

- ▶ How long is the trip (distance, gain)? **71.5 mi, 23189 ft gain**
- ▶ Which direction should we go? **Southbound**
- ▶ **How many days do you want to take? What daily distance and elevation gain can you handle at your current fitness level? Start with gross averages.....**

Unless you are heavily time-constrained, leave yourself a time buffer!!

Days	avg dist/day	avg gain/day
6	11.9	3865
7	10.2	3313
8	8.9	2899

First Draft 7-Day Itinerary

- ▶ Now let's examine and tentatively select daily routes for a 7-day itinerary using Gaia and the Nat Geo Pacific Crest Trail layer
- ▶ Save each day's route to a common folder
- ▶ Then go back and edit to find the total trip schedule that you like best

**THE
MOUNTAINEERS**

What's Next?

Iterate on your itinerary until you're happy with the cadence of your days

- ▶ *Consider that your packs will be heaviest on the first few days*
- ▶ *Daily distances/gains are strongly driven by available camps*
- ▶ *Evaluate options to reduce longest days or lengthen shorter ones*

Go back to the map....

First Draft 7-Day Itinerary Plotted with Gaia

DAY	FROM-TO	MILES	GAIN	LOSS
1	Stevens Pass to Mig Lake	7.3	2523	1951
2	Mig Lake to Deception Lakes	10.1	3474	3029
3	Deception Lakes to Deep Lk Jct	11.7	3167	3862
4	Deep Lake Jct to Escondido Ridge	12.1	3384	2527
5	Escondido Ridge to Spectacle Lake	12.1	2897	3900
6	Spectacle Lake to Ridge Lake	10.2	4870	3826
7	Ridge Lake to Snoqualmie Pass	7	1348	3573

**Toughest days
– within your
capabilities?**

**THE
MOUNTAINEERS**

Second Draft 7-Day Itinerary Plotted with Gaia

DAY	FROM-TO	MILES	GAIN	LOSS
1	Stevens Pass to Mig Lake	7.3	2523	1951
2	Mig Lake to Deception Lakes	10.1	3474	3029
3	Deception Lakes to Deep Lk Jct	11.7	3167	3862
4	Deep Lake Jct to midway up Escondido ridge	10.4	2587	2343
5	Mid way up ridge to Lemah Ford	10.5	2329	3688
6	Lemah Ford to Spectacle Lake (lunch) to Park Lakes	6.7	2942	1018
7	Park Lakes to Snoqualmie Pass	13.4	4546	6644

**THE
MOUNTAINEERS**

Third Draft 7-Day Itinerary Plotted with Gaia

DAY	FROM-TO	MILES	GAIN	LOSS
1	Stevens Pass to Mig Lake	7.3	2523	1951
2	Mig Lake to Deception Lakes	10.1	3474	3029
3	Deception Lakes to Deep Lk Jct	11.7	3167	3862
4	Deep Lake Jct to Escondido Ridge	12.1	3384	2527
5	Escondido Ridge to Spectacle Lake	12.1	2897	3900
6	Spectacle Lake to Joe Lake	8.1	3760	2893
7	Joe Lake East to Snoqualmie Pass	9.2	2459	4510

Or could add an 8th day to reduce days 3-5

**THE
MOUNTAINEERS**

Now mark your camps and other useful details with waypoints

- ▶ Save preferred daily Gaia routes into a folder – open daily routes and add waypoints for camps and water
 - ▶ Mark reliable water sources from map and other resources like pctwater.com
 - ▶ Many different symbols are available

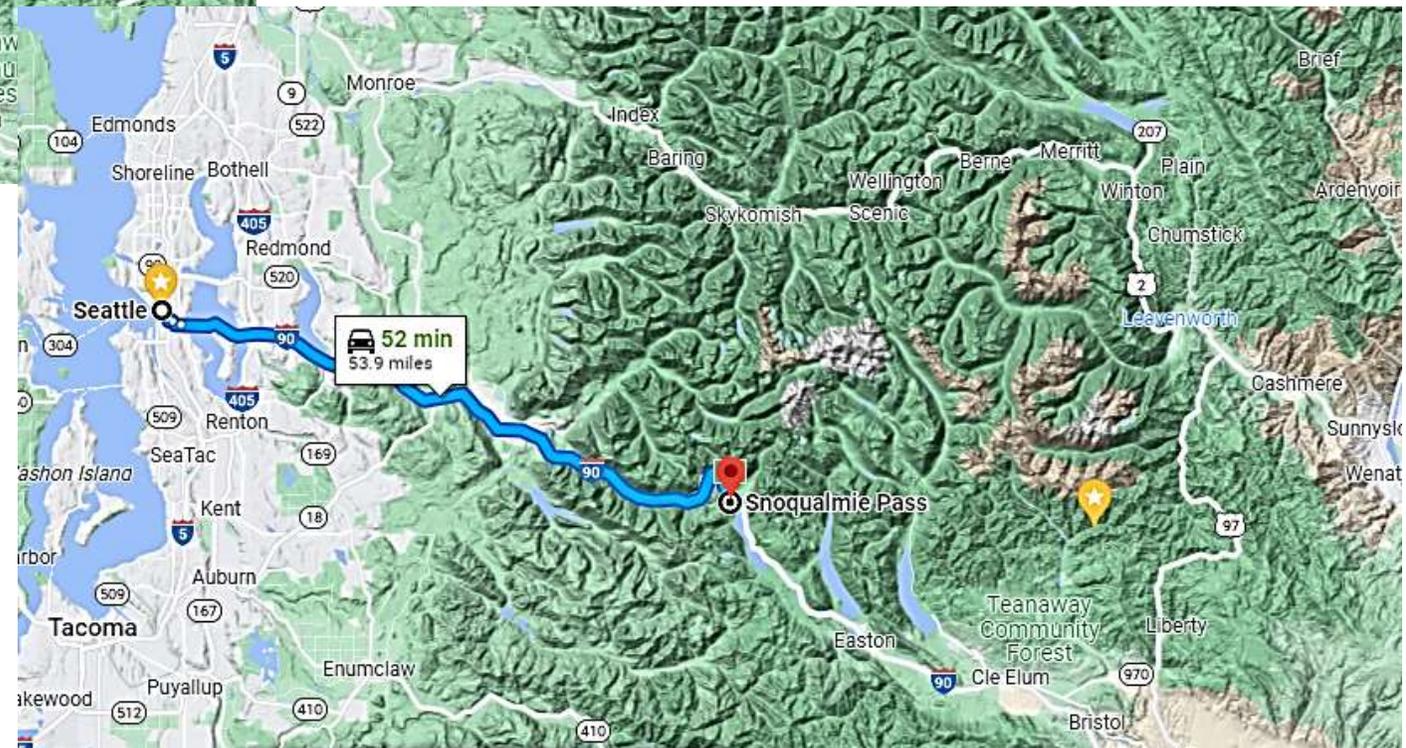

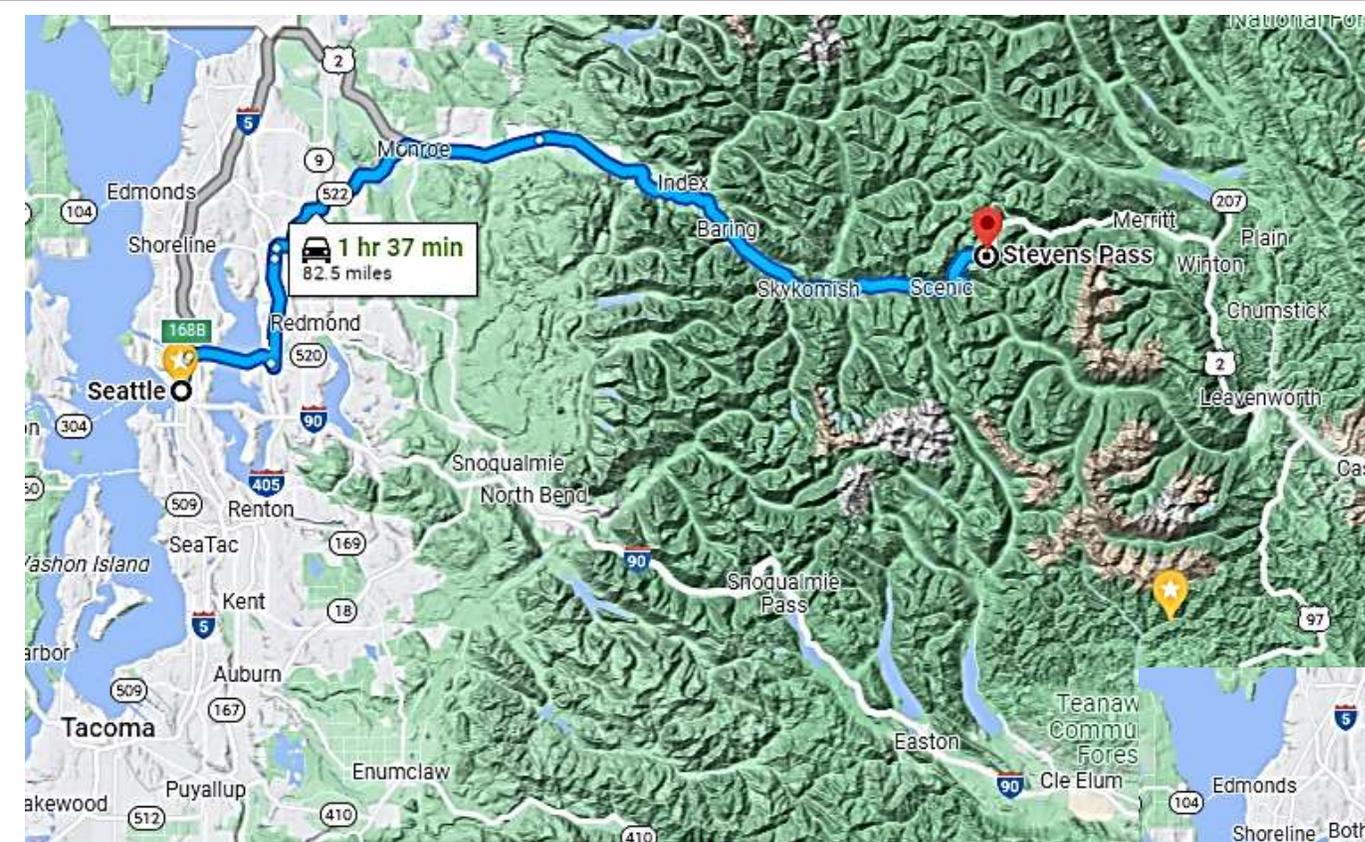

**THE
MOUNTAINEERS**

Details, Details!

- ▶ ***Next let's work out transportation logistics***
 - ▶ [Google maps](#) gives you a good quick visual with drive times

Getting to and from the trailhead – google maps

PCT Snoqualmie to Stevens

Trailhead transport options

- Car shuttle? Would take over 4 hours to stage cars
- Dropoff or pickup by friend or family? Or someone leaves a car at one end and gives you extra key?
- Key swap? ½ of group hikes from each end
- What about public transport options?

Transport Options between Seattle and Stevens or Snoqualmie Pass?

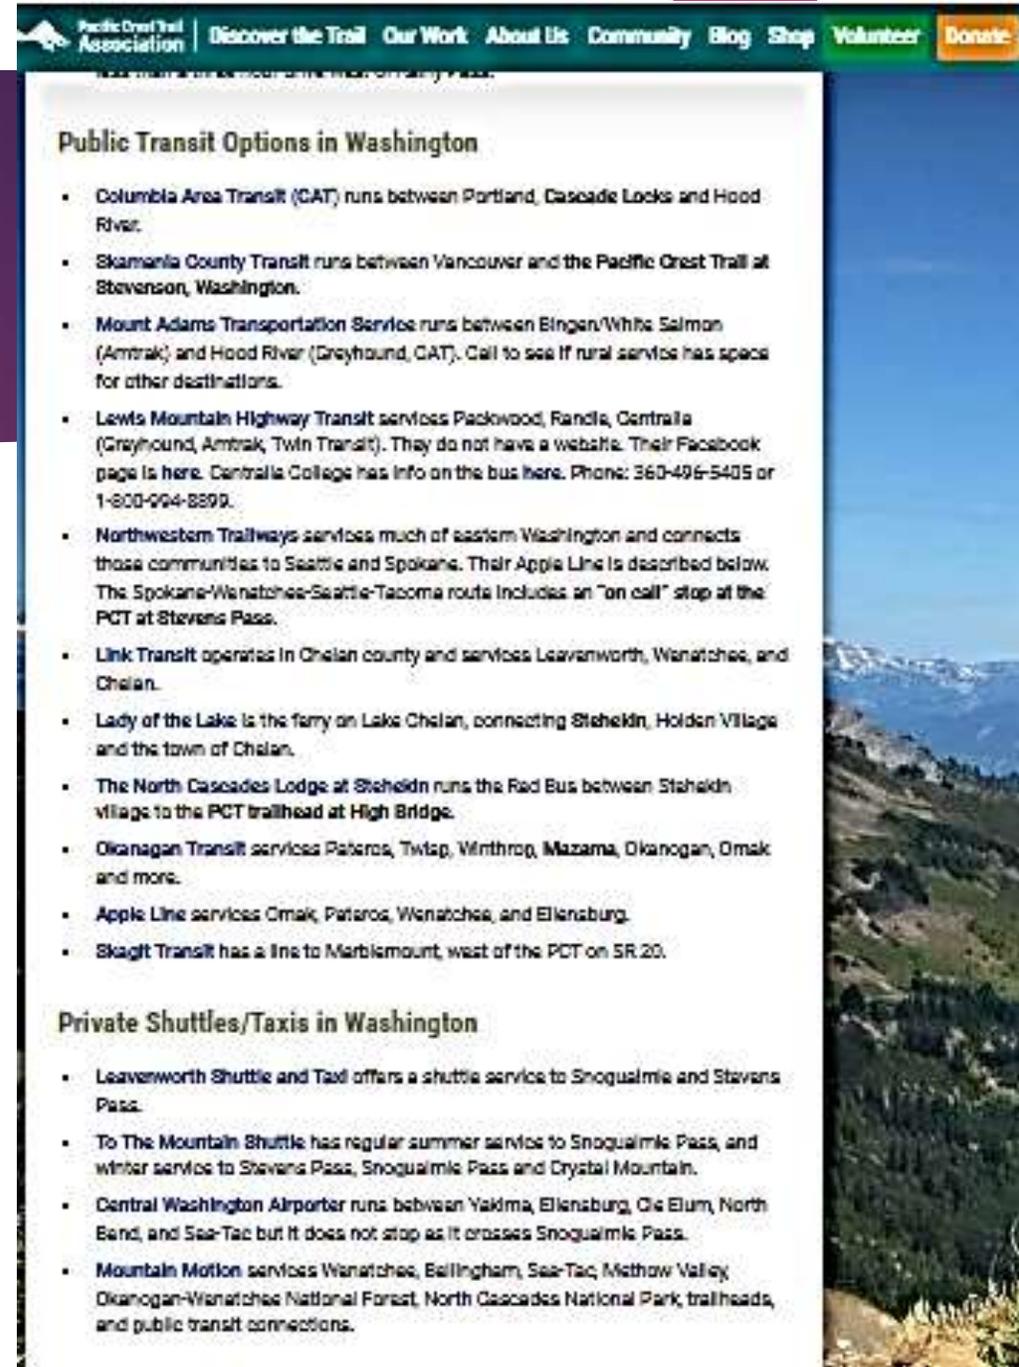

RomeToRio offers comparison of transport options to or from most points on the globe!

<https://www.rome2rio.com/map/Seattle/Stevens-Pass-Ski-Area#trips>

Public Transport Options between Seattle and Stevens or Snoqualmie Pass?

Pacific Crest Trail Association offers detail on transport options to or from most points on the PCT!

<https://www.pcta.org/discover-the-trail/backcountry-basics/pct-transportation/>

The screenshot shows the Pacific Crest Trail Association website with a navigation bar at the top containing links for 'Discover the Trail', 'Our Work', 'About Us', 'Community', 'Blog', 'Shop', 'Volunteer', and 'Donate'. The main content area is titled 'Public Transit Options in Washington' and contains a list of transit services. A vertical image of a mountain landscape is visible on the right side of the page.

Public Transit Options in Washington

- Columbia Area Transit (CAT) runs between Portland, Cascade Locks and Hood River.
- Skamania County Transit runs between Vancouver and the Pacific Crest Trail at Stevenson, Washington.
- Mount Adams Transportation Service runs between Elgin/White Salmon (Amtrak) and Hood River (Greyhound, CAT). Call to see if rural service has space for other destinations.
- Lewis Mountain Highway Transit services Packwood, Randle, Centralia (Greyhound, Amtrak, Twin Transit). They do not have a website. Their Facebook page is here. Centralia College has info on the bus here. Phone: 360-496-5405 or 1-800-994-8899.
- Northwestern Trailways services much of eastern Washington and connects those communities to Seattle and Spokane. Their Apple Line is described below. The Spokane-Wenatchee-Seattle-Tacoma route includes an "on call" stop at the PCT at Stevens Pass.
- Link Transit operates in Chelan county and services Leavenworth, Wenatchee, and Chelan.
- Lady of the Lake is the ferry on Lake Chelan, connecting Stehekin, Holden Village and the town of Chelan.
- The North Cascades Lodge at Stehekin runs the Red Bus between Stehekin village to the PCT trailhead at High Bridge.
- Okanogan Transit services Pateros, Twisp, Winthrop, Mazama, Okanogan, Omak and more.
- Apple Line services Omak, Pateros, Wenatchee, and Ellensburg.
- Skagit Transit has a line to Marblemount, west of the PCT on SR 20.

Private Shuttles/Taxis in Washington

- Leavenworth Shuttle and Taxi offers a shuttle service to Snoqualmie and Stevens Pass.
- To The Mountain Shuttle has regular summer service to Snoqualmie Pass, and winter service to Stevens Pass, Snoqualmie Pass and Crystal Mountain.
- Central Washington Airporter runs between Yakima, Ellensburg, Cle Elum, North Bend, and Sea-Tac but it does not stop as it crosses Snoqualmie Pass.
- Mountain Motion services Wenatchee, Bellingham, Sea-Tac, Methow Valley, Okanogan-Wenatchee National Forest, North Cascades National Park, trailheads, and public transit connections.

**THE
MOUNTAINEERS**

Additional Route Planning Other Excellent PCT Resources

- ▶ [FarOut Guides](#) (used to be Guthook) – (\$) great map detail including campsites and water, other trail notes – can install to use on your phone on the fly
- ▶ [Halfmile's PCT maps & notes](#) – (free) GPX and google earth files, trail notes
- ▶ Many crowdsourced databases on [pcta.org](#) with info on trail conditions, water, resupply, shuttles, trail angels and more

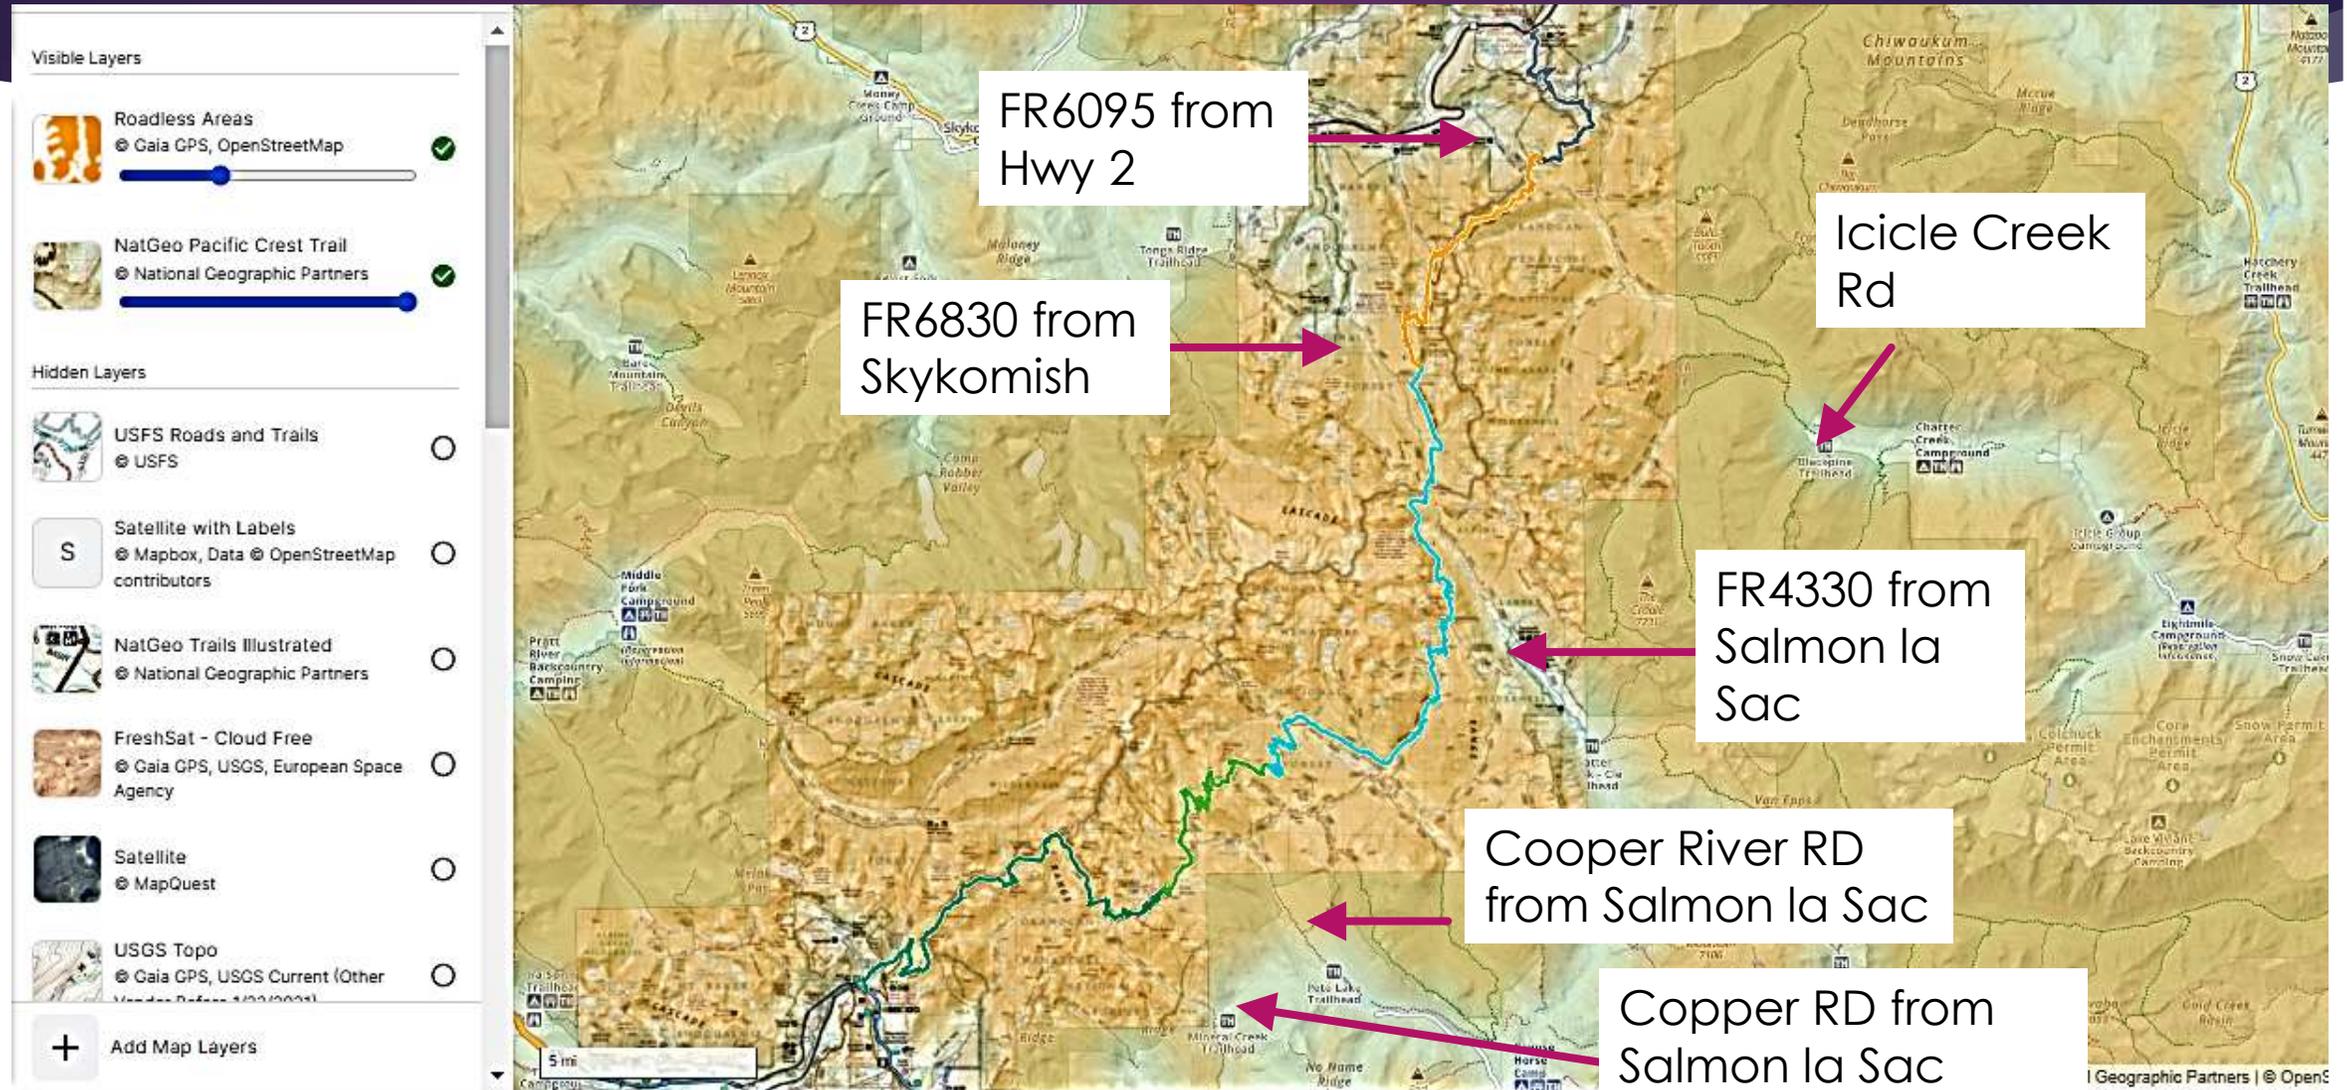

What about Emergency Exit Routes?

- ▶ Back to Gaia with some different layers in tandem:
 - Roadless Areas
 - USFS Roads and Trails

<https://www.gaiagps.com/map/?loc=11.2/-121.2518/47.4661>

Intermediate trail access-exit points

Use Roadless Area and Nat Geo map layers together

**THE
MOUNTAINEERS**

Emergency Exit Plan

Day	From-To	Dist to Start or End	Best Exit Option
1	Stevens Pass to Mig Lake	7.1	7.1 mi to Stevens Pass or 2.5 mi via trail 1061 to FR6095
2	Mig Lake to Deception Lakes	17.1	4.3 mi via trail 1059 to Deception Cutoff TH on FR6830
3	Deception Lakes to Deep Lake JCT	28.5	7 mi via trail 1345 to Tucquala Mdws TH on FR 4330
4	Deep Lake JCT to ridge above Waptus Lake	37.8	6.9 mi via trails 1329 and 1323 to Pete Lake TH and Old Cooper River Rd
5	Ridge above Waptus to Spectacle Lk	25.7	7.3 mi via PCT and trail 1323 to Pete Lk TH and Old Cooper River Rd
6	Spectacle Lk to Joe Lake	16.6	10 mi via trail 1331 to Mineral Creek TH and Cooper Rd
7	Joe Lake to Snoqualmie Pass	8.5	8.5 mi via PCT to Snoqualmie Pass

Essentials of Trip Planning for Backpackers

Emergency plan

Your Emergency Plan should include:

- ▶ The best exit option(s)
- ▶ GPS coordinates for your daily camps and the potential exit trailheads (to help you communicate with rescuers)
- ▶ The county you are in and contact info for SAR services
- ▶ Where the nearest hospitals / medical facilities are located
- ▶ How you will call for transportation from the various exit points

Before your trip, share your detailed route plan and possible exit routes with a trusted person at home – agree on how they can be reached, what they should do and when if they don't hear from you

On a route where you will be away from cell service for days at a time, seriously consider carrying a satellite communicator!

**THE
MOUNTAINEERS**

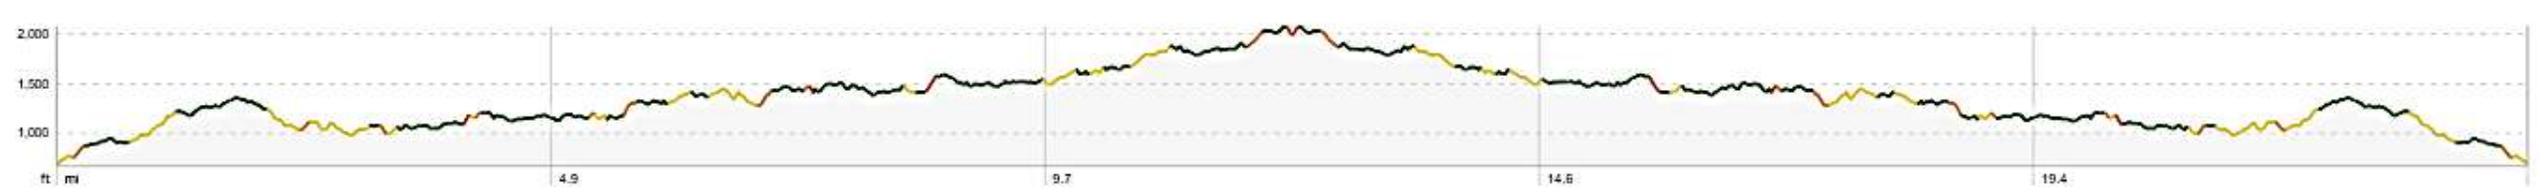

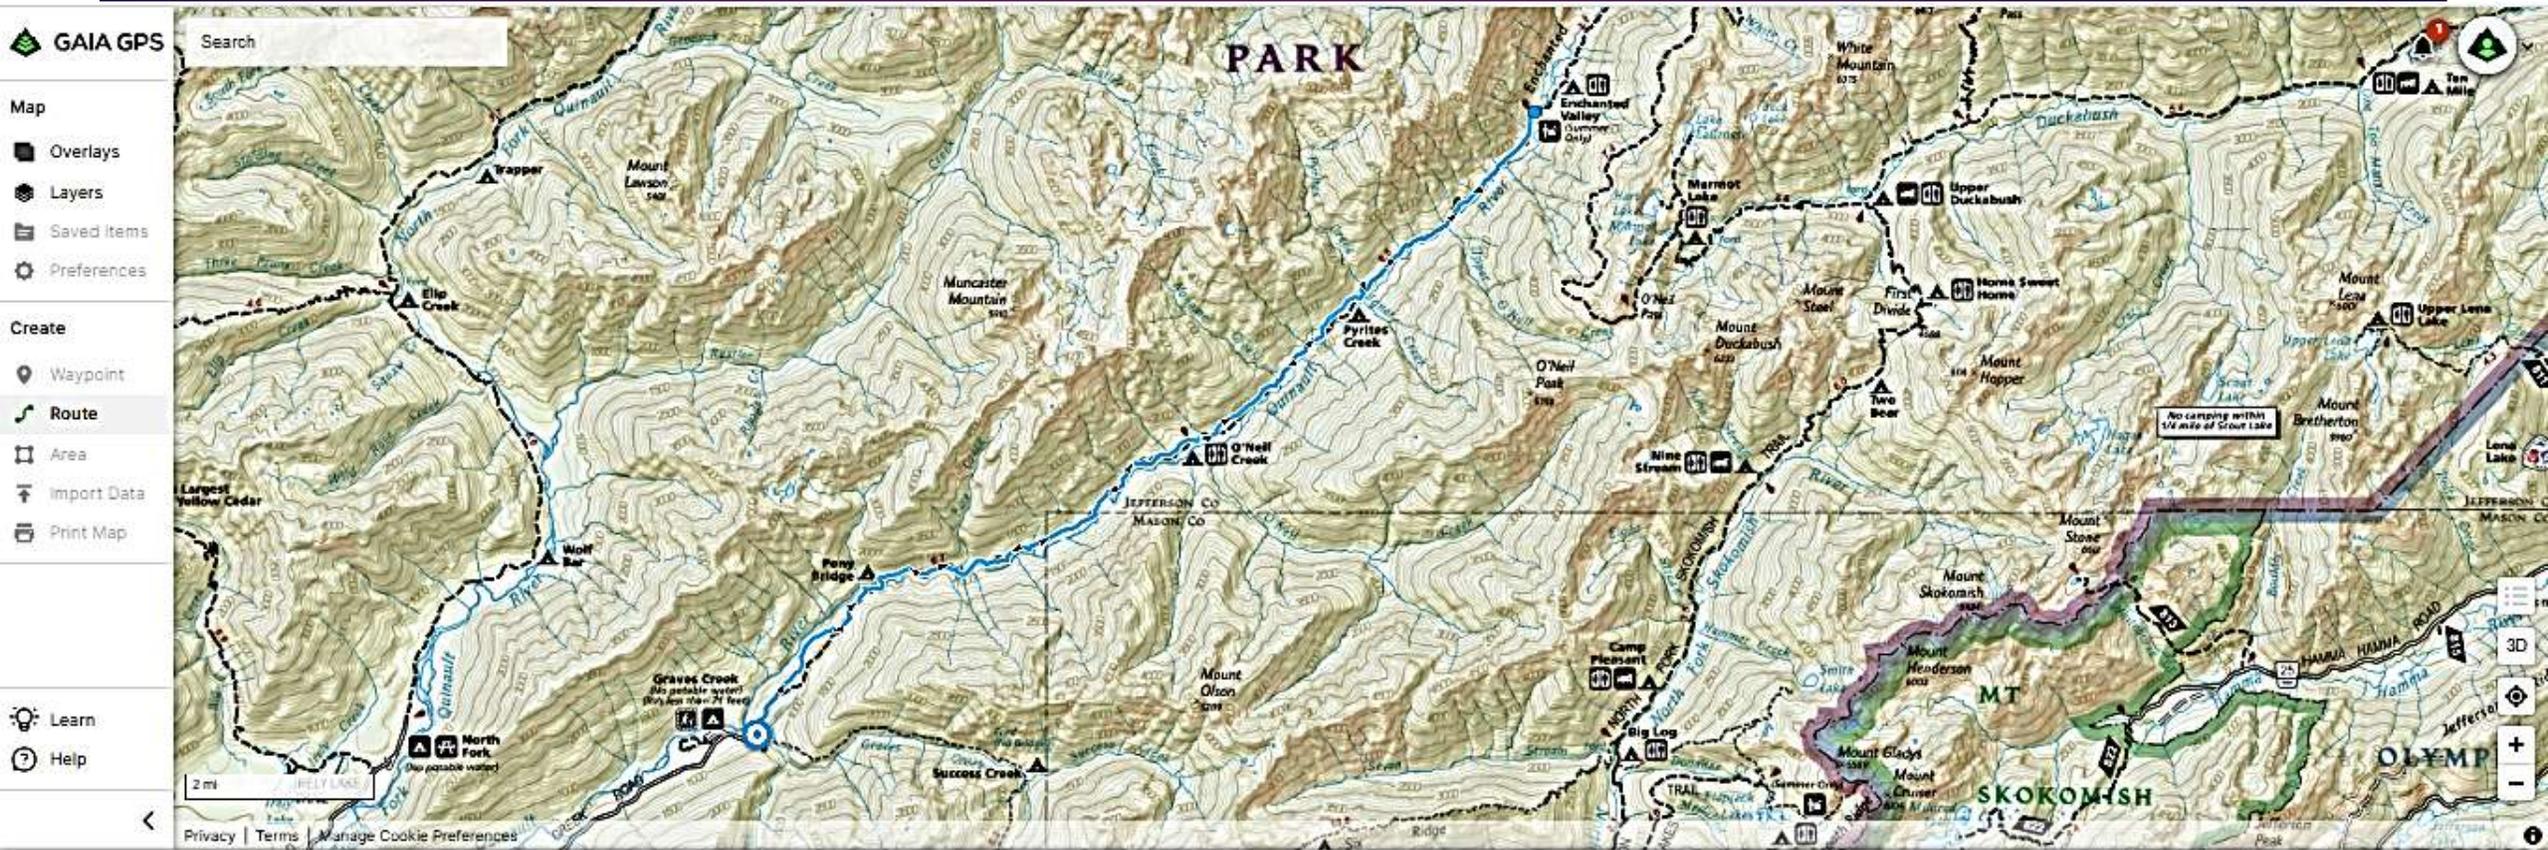

Olympic Peninsula: Enchanted Valley Round Trip with Anderson Pass

STEP 1: PLAN DAILY ROUTE AND CAMPS

First let's check out the overall route and distance-gain profile on Gaia with Nat Geo Trails Illustrated map.

<https://www.gaiagps.com/map/?loc=12.3/-123.5181/47.5965>

Big Picture

Big Picture

- ▶ How long is the trip (distance, gain)? ***24.5 miles, 7119' gain and loss (plus optional 11.5 mi, 5252' gain RT to Anderson Pass and back)***

Big Picture

- ▶ How long is the trip (distance, gain)? **24.5 miles, 7119' gain and loss (plus optional 11.5 mi, 5252' gain RT to Anderson Pass and back)**
- ▶ How many days are available? What distance and gain are you prepared to take on?

First chart
without
Anderson
Pass side trip

Days	avg dist/day	avg gain/day
2 Days	12.2	3560
3 Days	8.2	2373
4 Days	6.1	1780

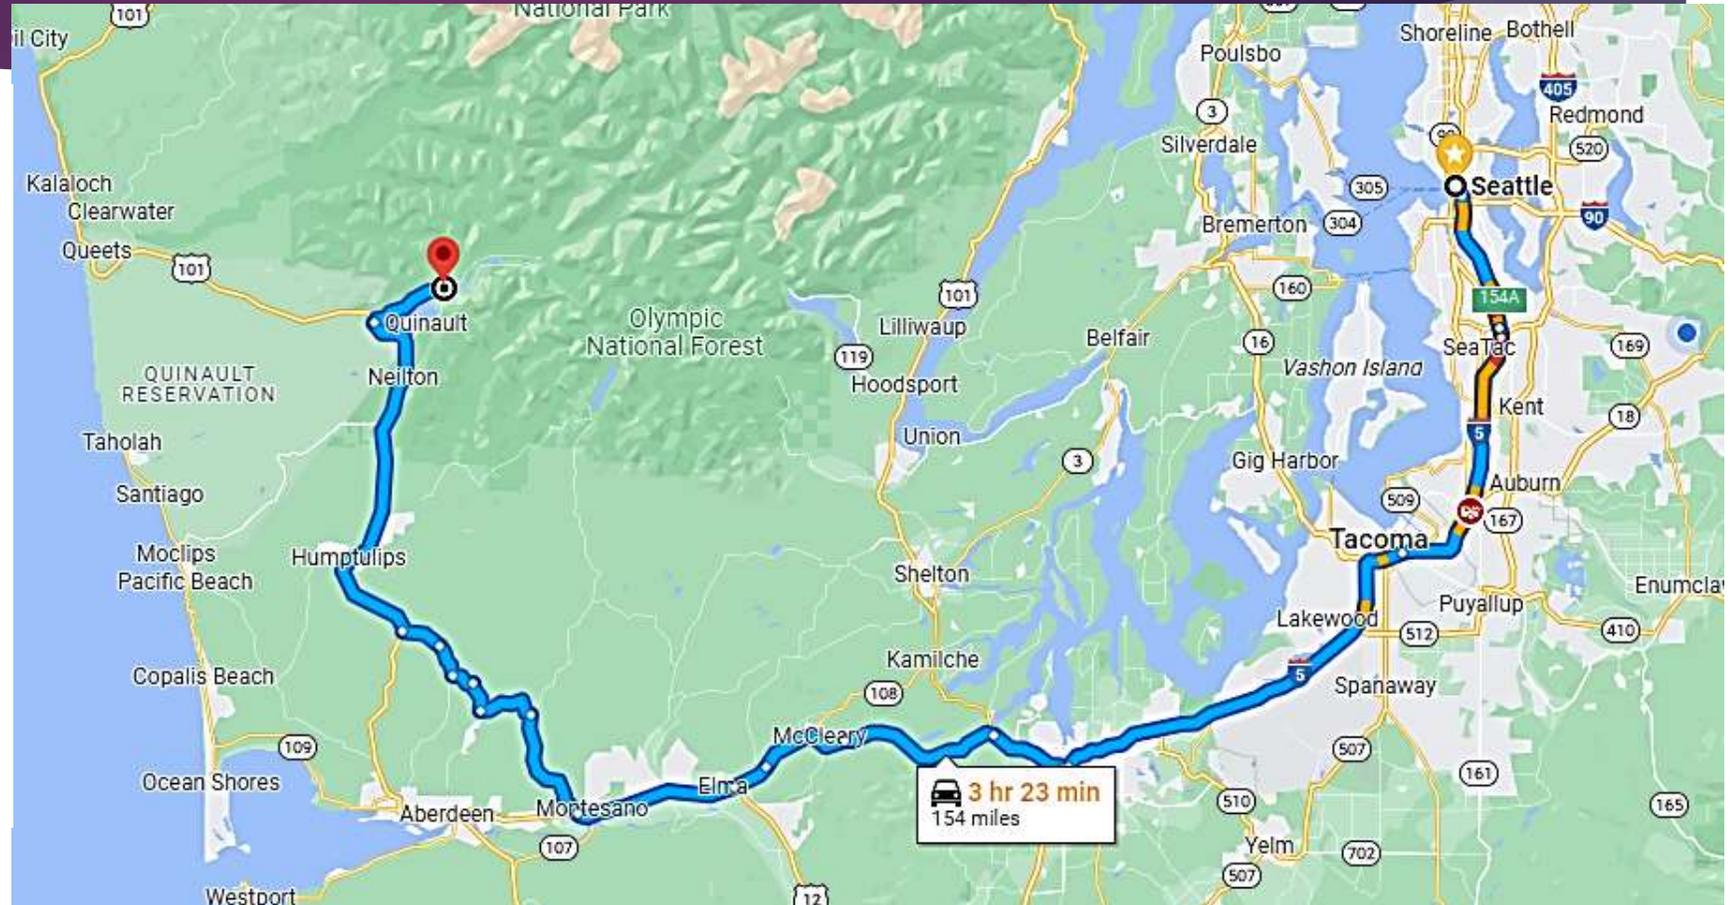

**THE
MOUNTAINEERS**

Better check Transport Logistics!

Must pick up permits and bear cans at Quinault Ranger Station!

- Open hours: M-F 8AM-4PM year round;
- Sat 8-4, Sun 9-4 after Memorial Day

**THE
MOUNTAINERS**

Better Check Transport Logistics...

**Earliest start: ~9:15 AM
(with 4:30AM departure
from Seattle, or camp at
Lake Quinault)**

Go to full
screen

Big Picture

- Now look more closely at how the daily distances and gains work out considering the available camps...
 - *Walk all the way to Enchanted Valley on day 1? Add Anderson Pass the same day to allow 2-day trip? [Go to map!](#)*

Big Picture

- Now look more closely at how the daily distances and gains work out considering the available camps...
 - *Walk all the way to Enchanted Valley on day 1? Add Anderson Pass the same day to allow 2-day trip?*
 - *12.1 miles, 4125' gain just to get to Enchanted Valley (maybe not given late start!)*
 - *Walk to Pyrites Creek camp on day 1, then Enchanted Vly + Anderson Pass on day 2 ending at Enchanted Valley? Back to map....*

Big Picture

- Now look more closely at how the daily distances and gains work out considering the available camps...
 - *Walk all the way to Enchanted Valley on day 1? Add Anderson Pass the same day to allow 2-day trip?*
 - *12.1 miles, 4125' gain just to get to Enchanted Valley (maybe not given late start!)*
 - *Walk to Pyrites Creek camp on day 1, then Enchanted Vly + Anderson Pass on day 2 ending at Enchanted Valley?*
 - *9 miles, 3042' gain day 1, 14.4 mi, 6184' gain day 2 (mostly with daypacks)*
 - *Day 3: Go all the way out (12.1 mi), or go to Pony Bridge on day 3 (9.9 mi, 2365' gain) and add a 4th day out (Back to map)*

Emergency Exit Options?

The image shows a screenshot of a map application interface. On the left, there is a 'Map Layers' panel with a search bar at the top. The panel is divided into 'Visible Layers' and 'Hidden Layers'. The 'Visible Layers' section includes:

- Roadless Areas**: Gaia GPS, OpenStreetMap (checked)
- NatGeo Trails Illustrated**: National Geographic Partners (checked)

The 'Hidden Layers' section includes:

- NatGeo Pacific Crest Trail**: National Geographic Partners (unchecked)
- USFS Roads and Trails**: USFS (unchecked)
- Satellite with Labels**: Mapbox, Data, OpenStreetMap contributors (unchecked)
- FreshSat - Cloud Free**: Gaia GPS, USGS, European Space Agency (unchecked)
- Satellite**: MapQuest (unchecked)
- USGS Topo**: Gaia GPS, USGS Current (Other) (unchecked)

The main map area displays a topographic map of a mountainous region. A red line highlights a trail route, and a purple line highlights a specific segment of the trail. The map includes labels for 'PARK', 'SKOKOMISH WILDERNESS', 'OLYMPIC NATIONAL FOREST', and 'Robbinswood Forest'. Other features include 'The Brothers Wilderness', 'Trap Pass', and 'Ranger Hole Trailhead'. A search bar is located at the top of the map area.

Emergency Exit Plan?

Exit Route	Back To Starting TH	Best Exit?
From O'Neill Creek Camp	6.4 mi	6.4 mi to Graves Creek
From Pyrites Camp	8.8 mi	8.8 mi to Graves Creek
From Enchanted Valley	12.8 mi	12.8 mi to Graves Creek
From Anderson Glacier	23.1 mi	20.4 mi to Dosewallips road end???. Or better to head back to Graves Crk?

What's Next?

Once you've nailed your itinerary:

- ❖ *Mark selected camps with map waypoints*
- ❖ *Mark reliable water supplies with map waypoints*
 - *Solid blue lines – major water courses or lakes*
- ❖ *Mark alternative camp possibilities with map waypoints?*
 - *If permits required, then you aren't allowed to use alternatives*
- ❖ *Save your waypoints to the same folder as your routes*

**THE
MOUNTAINEERS**

What's Next?

Once you've nailed your itinerary (continued):

- ▶ *Export to Caltopo to create printed maps (Go to map to show export to .gpx file type which can be imported to Caltopo)*
- ▶ *Synch with Gaia app on your phone and download-save the map to use offline to navigate on the trail (only available to Gaia Premium users)*

Disclaimer!

None of these digital map databases are based on measurements on the ground – they come from other sources, particularly satellites.

- *Elevation and trail locations can be somewhat to significantly off*
- *Trails can also be washed out and/or re-routed; camps and even trailheads may be moved or destroyed.*
- *'Casual' trails and boot paths that show on the database may not actually be visible (or safe!) on the ground*

SO...use the tools with your eyes open – seek out trip reports before you go - be prepared to navigate in the field when your map and reality don't match!

Questions on this section?

Essentials of Trip Planning for Backpackers

Gear Planning

★ ***The key to having the essential gear while keeping your pack light is to:***

- *Be intentional and disciplined about what you bring*
- *Pack based on expected terrain and conditions and the objectives for your trip*
- *Use a checklist to pack!*
- *Start assembling your gear at least a week ahead so that you can take your time (and inspect your gear)*

Essentials of Trip Planning for Backpackers

Gear Planning - Objectives

★ *What's your primary objective? (fishing, climbing, photography vs. walking)*

- If your focus is on enjoying camp and hobbies (fishing, photography, camp cooking, climbing), your pack will be heavier – don't expect to go as far each day or in the same total timeframe
- If your focus is on covering distance, keeping your pack light will help you meet your objective with greater comfort and less risk of injury

Go to full screen

Essentials of Trip Planning for Backpackers

Gear choices based on conditions – a few examples

What conditions do you expect where and when you plan to go?

** Daytime high and nighttime low temperatures*

- Number and weight of baselayers, midlayers and other warm clothing
- Sleeping bag temperature rating; bring bag liner? pad R value

*Gear Choices for
Different Conditions*

** Expected precipitation – amount, duration, timing*

- Lightweight, less waterproof raingear vs. heavier more waterproof hard-shell
- Rain pants? Umbrella?
- Pack cover, dry sacks

** Terrain – snow conditions: traction, gaiters, stiffer boots, poles; ice axe?*

** Water availability, quality: water-carry capacity, treatment method*

Essentials of Trip Planning for Backpackers

Gear Planning – Build a trip-specific gear checklist

✦ **Build a checklist from your total gear inventory**

- Use the provided gear checklist as a template, or try out *Lighterpack!*

✦ **For any given trip, mark on your checklist which gear items you will need and which you can leave behind given the length of the trip and the weather and terrain conditions you expect.**

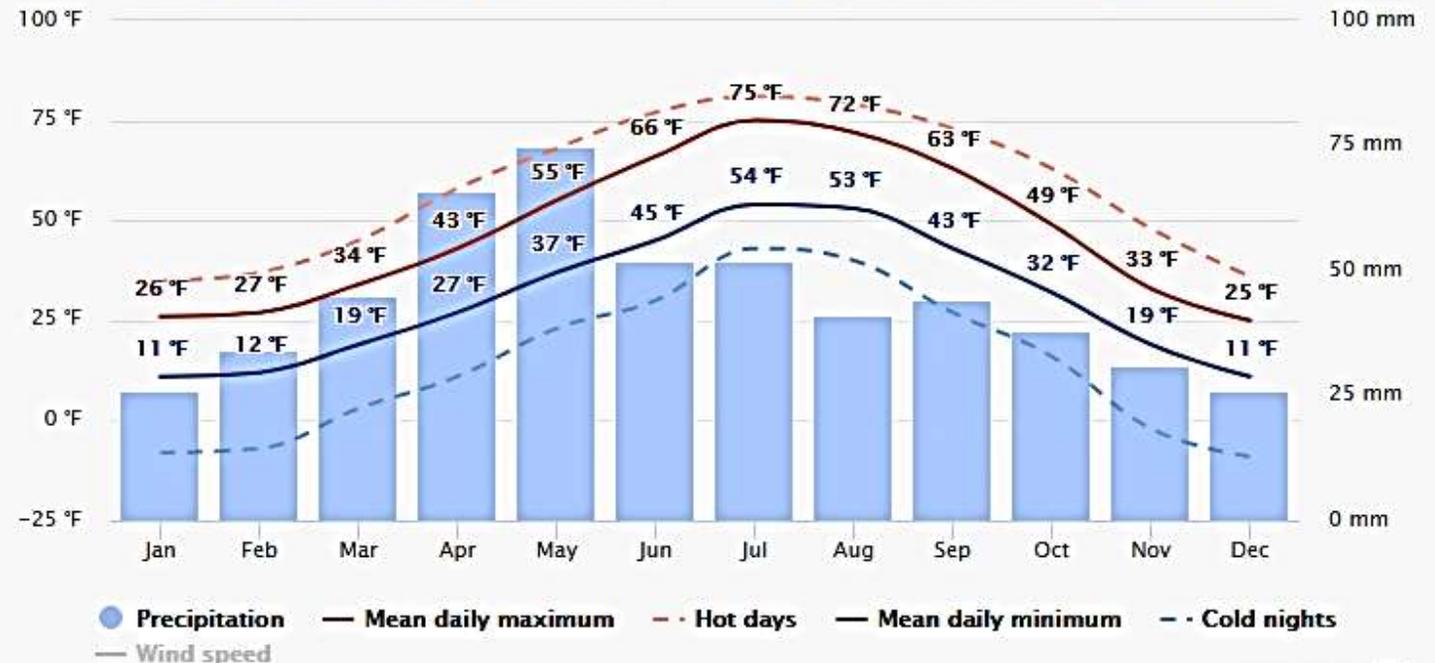

Essentials of Trip Planning for Backpackers

Example: Wind Rivers Highline in WY – 11 days, September

- Daytime highs in 60s to 70s
- Daytime lows in 20s to 40s
- Moderate chance of precip (PM thunderstorms)
- Could be snow but likely to melt fast
- Rugged very rocky sections
- Bears! (but bear cans not mandatory)
- Lakes and world class fishing

Average temperatures and precipitation

ATTENTION: Complex terrain! Calculated values are valid for 2545m. Expected temperature difference: 17.0°F.

[See sample gear checklist!](#)

Essentials of Trip Planning for Backpackers

Gear Planning – Finalize a trip-specific gear checklist

- ✓ Build a checklist from your gear list
- ✓ Mark on your checklist which gear items you will need and which you can leave behind given the length of the trip and the weather and terrain conditions you expect.
- **Inspect your gear – identify anything that needs to be replaced – identify any essential gear gaps that need to be addressed.**
- ***USE YOUR GEAR CHECKLIST EVERY TIME YOU PACK!***

Essentials of Trip Planning for Backpackers Food Planning Fundamentals

#1. Think of food as the fuel to power your trip. Plan for enough to get the job done.

- ▶ 300 to 600 calories per hour of vigorous walking with a pack is a good rule of thumb (2500-5000 cals for an 8 hour day)
 - ❖ more for bigger people, very strenuous, cold or high altitude trips, less for smaller people, less strenuous trips

Everyone is different! Work out for yourself how many calories YOU need for particular types of trips!

Essentials of Trip Planning for Backpackers

Food Planning Fundamentals

- Short Trip? Short mileage with base camp? Love gourmet cooking at camp? → *Food weight is a lower priority.*
- For longer trips (4+ days) and trips requiring a bear can, the weight and volume of your food will add up → *Essential to make a food plan!*
 1. *Sufficient calories*
 2. *Food you love to eat*
 3. *Minimum weight and bulk*

Essentials of Trip Planning for Backpackers

Food Planning Fundamentals: Calorie Density

How to get all those calories and keep your pack light??? *Pack as many calories as you can into the fewest pounds of food!*

➔ By packing more calorie-dense foods, you can deliver your target daily calories in less than half the weight!!

This means...

- **Increasing the percentage of fat of the trail foods you carry**
- **Reducing the water content of the trail foods you carry**

Essentials of Trip Planning for Backpackers

Food Planning Fundamentals: Calorie Density

A good calorie density target is 4.5 cal/gram, or 2000 calories per pound of food weight.

- 1.5-2.5 lbs/day (3000-5000 calories/day) to fuel a strenuous extended itinerary.
- 1-1.5 lbs/day (2000-3000 calories/day) for shorter, lower-intensity trips

Example – Chunky Peanut Butter

84

Nutrition Facts

Serving Size 2 tbsp (32.0 g)

Amount Per Serving

Calories 188

Calories from Fat 144

% Daily Value*

Total Fat 16.0g **25%**

Saturated Fat 2.6g **13%**

Polyunsaturated Fat 4.7g

Monounsaturated Fat 7.9g

Cholesterol 0mg **0%**

Sodium 156mg **6%**

Total Carbohydrates 6.9g **2%**

Dietary Fiber 2.6g **10%**

Sugars 2.7g

Protein 7.7g

➤ Calorie density: $188/32$
=

5.9 cals/gm

➤ % wgt in fat = $16g/32g$
= **50%**

Examples of Calorie-Dense Trail Foods

- ▶ **Flavored olive oil** – 9 cal/gram, 100% fat
- ▶ **Macadamias** – 7.3 cal/gram, 86% fat
- ▶ **Trailtopia Egg Scramble** – 6.6 cal/gram, 49% fat
- ▶ **Almond butter** – 6.5 cal/gram, 59% fat
- ▶ **Peanut M&Ms** – 5.8 cal/gram, 37% fat
- ▶ **Banana chips** – 5.1 cal/gram, 39% fat
- ▶ **Whole powdered milk** – 4.8 cal/gram, 31% fat

Examples of Less Calorie Dense Trail Foods

- ▶ **Tuna or chicken in pouch** – 1.2 cal/gram, 14% fat
- ▶ **Full-fat tortillas** – 2.8 cal/gram, 14% fat
- ▶ **Teriyaki beef jerky** – 2.9 cal/gram, 5% fat
- ▶ **Dried blueberries** – 2.9 cal/gram, 4% fat
- ▶ **Black Cherry Almond Clif Bar** – 3.5 cal/gram, 9% fat

★ **These foods aren't "bad"!! Just less efficient in energy for their weight. Remove the water, or 'boost' with more calorie-dense ingredients.**

Food Planning Fundamentals

Check out the handy [calorie density lookup tables](#) in your food class resources!

Essentials of Trip Planning for Backpackers

Making your food plan 1. Make a meal calendar

Location	Date	Camp	Breakfast	Lunch-Snacks	Dinner
Start - Rivera Lodge Pinedale	5-Sep	0			
Beaver Park - Granite Lk trail jct	6-Sep	1		1	1
Elbow Lake	7-Sep	2	1	1	1
Island Lake - 2 nights	8-9 Sept	3-4	2	2	2
Baldy Lakes Jct - out	10-Sep		1	1	
		TOTALS	4	5	4

Essentials of Trip Planning for Backpackers

Making your food plan 2. Build your food checklist

- **What are your favorite food options for each trail meal?**
- **What is the serving size you are likely to consume?**
 - ❖ *Use the serving grams on the package label as a starting point*
 - ❖ *Weigh or measure it out on the counter – adjust if you bring some home*
- **How many calories are associated with each serving?**
 - ❖ *From package label as starting point*
- **Make a checklist of the servings of each food you need to bring to satisfy your trail meal calendar.**

Essentials of Trip Planning for Backpackers

2. Sample food checklist - breakfast

Food	Serving (gms)	Calories	Calories/Gram
Via packet	1	0	0
Cocoa mix+Coffee creamer (4tsp)	37	180	4.9
Full-fat granola with nuts & fruit (3/4C)	93	433	4.7
OR: Instant oatmeal with flaxseed, coconut, raisins and seeds (1C)	100	375	3.8
Whole milk powder (1/4C)	30	144	4.8

Start with a list for a single day and meal.

Essentials of Trip Planning for Backpackers

2. Sample food checklist – lunch/snacks

Food	Serving (gms)	Calories	Calories/Gram
Almond butter (2T packet)	31	201	6.5
Jelly packet	10	35	3.5
OR: Hard cheese (2 oz serving)	56	218	3.9
WITH: Mustard and mayo packets	18	90	5.0
ON: Oroweat english muffin 2 halves	59	134	2.3
Almond-cashew-walnut-sesame sticks mix	18	113	6.3
Macadamia nuts (2 oz)	56	416	7.4
Peanut or almond M&Ms (15 pcs)	36	203	5.6

Essentials of Trip Planning for Backpackers

2. Sample food checklist – dinner/dessert

Food	Serving (gms)	Calories	Calories/Gram
Dehydrated dinner (1 svg dry)	100	455	4.6
Instant cream soup mix (1 pkt)	25	90	3.6
OR: Packaged Strawberry Harvest salad with dressing	85	160	1.9
Stonefire Naan bread (1/2 piece)	49	190	3.9
OR: Jalapeno-cheddar wrap - large (1)	55	210	3.8
Almond Roca 3-pack	36	200	5.6
OR: Keeblers Samoa cookies (3)	39	210	5.4

Essentials of Trip Planning for Backpackers

2. Sample food checklist – *add # servings to pack*

Dinner Example – calendar says we need 4 dinners				
Food	Serving (gms)	Calories	# Servings to pack	Total Gms to Pack
Instant cream soup mix (1 pkt)	25	90	4	100
Dehydrated dinner (1 svg dry)	100	455	4	400
Packaged Strawberry Harvest salad with dressing	85	160	2	170
Stonefire Naan bread (1 piece)	98	380	2	197
Jalapeno-cheddar wrap - large (1)	55	210	2	111
Almond Roca 3-pack	36	200	3	108

Now put all the meals together and look at the bottom line...

Essentials of Trip Planning for Backpackers

2. Sample food checklist – *bottom line for this menu*

<i>calories per day for 4.5 days (check)</i>	<i>2467</i>
<i>food weight per day for 4.5 days (lbs) - check</i>	<i>1.3</i>
<i>average calories per gram for total menu</i>	<i>4.2</i>

- Calories barely enough for a full day of strenuous backpacking
- Opportunity to reduce the weight per day by 1/3 pound by increasing the average calories per gram to 4.5
- Go back and modify the amounts of high and low calorie density items
- Then make your food sheet into a checklist and use it to pack!

Backpacking Trip Planning Clinic

Menu Planning for a Trip with a Resupply

See multi-day example with a resupply

Follow your plan!!

- ✓ ***Use your meal checklist when you pack!***
 - *Measure your portions when you pack → bring only what you need!*
 - *Take food out of its packaging to be sure it's the right amount for you (and to minimize trash)!*
- ✓ ***Many people package their individual meals in separate bags for each day to make it easy to keep track.***

Don't forget to plan your fuel use!

- ✓ ***1 oz of canister fuel will heat ~8 cups of water*.***
 - *How much water will you heat per day?*
 - *Use this ratio to determine how much fuel you will need*
 - *Share with others to get fullest use of whole canisters if you won't use a whole one by yourself.*

**** More fuel will be needed if windy, or at high altitude, or if water or air is very cold***

Key Take-Aways

- ✦ **Choose a destination that fits your abilities and is safe during the time of year you want to go.**
- ✦ **Build a route plan based on your objectives, available time, terrain**
 - *Lots of great digital tools are available!*
- ✦ **Make sure you include your transport and emergency exit plans!**
- ✦ **Understand the near-term weather and other trail conditions to expect – build your gear checklist accordingly, and use it!**
- ✦ **Make a food plan to ensure enough calories at the lowest weight with food you love to eat**

Key Take-Aways (continued)

- ✦ **Organize and archive the info you've created (shareable drives are handy)**
- ✦ **Don't forget to share your trip plan and contact info to your friends and family at home**
- ✦ **Consider your emergency communication options – PLB, InReach**
