Subject: Gear Workshop Follow-up - Mountaineers Alpine Scramble Course

Greetings everyone -

As promised, we're here to check-in and "thank you" for such an engaging and exciting turn-out of attendance at our Gear Workshops, to kick-off Seattle Alpine Scramble Course.

We had a blast, and hope you did as well.

There are a few follow-ups we wanted to share by way of "next steps" and expectations:

**Next-steps:**

- ❑ **Register for Wilderness Navigation** - to successfully graduate this year, you need to *complete this before the Experience Field Trip in June*. [Everett](#) & [Tacoma](#) still have room on their rosters!
- ❑ **Register for Wilderness First Aid** - to successfully graduate this year, you need to *complete this before Winter which we define as November 1st*. [Foothills](#), [Everett](#) & [Tacoma](#) still have room on their rosters!
- ❑ **Register for a Conditioner.** Remember to [register through the course page](#), but double-check the details of the activity (click on the location name). The activity details are especially important where the conditioners are on weekdays - a number of these are during the day, while others are after-hours. You will be limited to one, for now. Next week we will open up multiples and send a note to remind you when you can register for more.
- ❑ **Register for the Snow & Rock Workshops.** Remember to [register through the course page](#). Choose one of the following options:
  - ❑ Tuesday, March 17th AND Thursday, March 26th, (these are after hours) or
  - ❑ Saturday, April 4th (this is all day), or
  - ❑ Sunday, April 12th (this is all day)
- ❑ **Purchase or Rent Gear.** Please see the flyer attached for discounts at Miyar Adventures. Additionally, feel free to [join us at Ascent Outdoors](#) for a Gear Shopping Night on February 19th from 7pm-9pm. Registration is not required, simply show-up or redeem your discount throughout the remainder of the course.

**Upcoming expectations:**

- ❑ **Communications re: Conditioning Hikes** will come via e-mail directly from the Conditioning Hike Leader leading the trip you registered for. Expect to hear from them before your trip and be sure to connect with them regarding any questions or concerns you may have.

- ❑ **Communications re: Workshops** will come via e-mail, from us, at the beginning of March.
- ❑ **Communications re: Field Trip registration** will come via-e-mail, from us, at the beginning of April.
- ❑ **Communications re: Field Trip specifics** will come via e-mail from the Field Trip Leader prior to your trip.
- ❑ **Please remember to keep your registration current.** Use the “manage registration” button for our course (or any other activity you’re participating in) to edit your registration details before registration closes. There may be waitlists where people are trying to get on a roster. It is common Mountaineers courtesy to CANCEL ASAP when you know you’re no longer available for an activity - even if you’re on a waitlist, there may be someone waiting behind you.

Thank you for taking the time to read through all of this detail.

**Have questions?** [Check the handbook, please.](#) Still have questions? Shoot us an e-mail. We'll do our best to get back to you within a few days.

**On behalf of everyone volunteering throughout the course (*our Committee, our Leaders and our Instructors*), we’re really looking forward to seeing you at the Snow & Rock workshops!**
