

## Dear The Mountaineers:

Thank you for submitting your rock lottery request. You received many of the dates and locations you requested through the lottery. Congrats!

The following dates/locations had some modification to your request. ALL OTHERS ARE AUTHORIZED:

- **June 14: No location available for this date**

Below is a short summary of the 2015 rock lottery results data:

- **1,713** Client Service Days (CSD's) out of 2,865 available CSD's were allocated through the lottery
- **1,509** CSD's were allocated in the Icicle; **204** CSD's were allocated at Castle Rock
- **8** days "filled" to capacity in the Icicle
- **7** days "filled" to capacity at Castle Rock
- The number of lottery requests varied greatly between Outfitter's & Guide's (O&G's): The least number of requests submitted was **6** and the greatest was **59**. The average number of lottery requests was **26**.
- **4 of 8** O&G's received **ALL** their requested dates.
- For those O&G's that did not receive all of their requested dates, between **1 and 3** dates were denied without the ability to offer an alternate location for the requested date.

If you have any changes in your itineraries or in the number of clients you requested for any day, please notify me so that I can make those dates available to other climbing guides. **A failure to notify me in advance of any cancellations of your requested dates is unfair to those other guides seeking use. Please make every effort to make me aware of changes-failure to do so, can result in loss of permit days or other restrictions. I would prefer this notification be sent in an email if possible.**

You are still welcome to try to schedule additional trips, but please try to make those requests at least seven days in advance of the proposed day of use (I know this can be very difficult). We cannot guarantee a response in less than seven days, especially during the busy summer months, but I will do my best.

Please do not hesitate to contact me with any questions or concerns.

Sincerely,

*Gabrielle Snider*
