

## 2019 USFS Leavenworth User Day Allocation – FINAL

If your field trip is not going to run at capacity, please let Amanda Virbitsky ([amandav@mountaineers.org](mailto:amandav@mountaineers.org)) know at least 7 business days prior (if at all possible), so that she can contact the US Forest Service and “return” the user days that we no longer need.

Don't see your trip listed? This is the complete list of trips from the USFS Leavenworth Rock Lottery that received at least *some* of the user days (student slots) that were requested. A few trips that were submitted received *no* user days from USFS – those trip leaders have been contacted so that they can make alternate arrangements. Trips to areas not included in the USFS Leavenworth Rock Lottery (Alphabet Rock, Sam Hill, Peshastin Pinnacles, Groundhog's Day), are also not included in this list.

Please keep in mind that the group party size for this area is 15 maximum, including students and instructors. This means that larger courses must spread out into distinct groups that operate at separate locations for the whole day. If your field trip is not going to run at capacity, please let Amanda Virbitsky ([amandav@mountaineers.org](mailto:amandav@mountaineers.org)) know at least 7 business days prior (if at all possible), so that she can contact the US Forest Service and “return” the user days that we no longer need.

If you need to request user days for a 2019 trip that was *not* included in our official USFS Rock Lottery request, please reach out to Amanda Virbitsky ([amandav@mountaineers.org](mailto:amandav@mountaineers.org)) as soon as possible so that she can check in with USFS about what user days may still be available.
